The Routledge Handbook of Organizational Leadership

Communication Guowei Jian, Gail T. Fairhurst, 2025-04-30 This handbook captures a rapidly developing body of scholarship to map out the terrain of leadership communication and stimulate interdisciplinary dialogue among leadership communication scholars for future research. The Routledge Handbook of Organizational Leadership Communication surveys various areas of leadership communication, critically assesses their development, and proposes guidance for future research. It begins by addressing prominent theories or emerging theoretical perspectives that help conceptualize leadership communication, ranging from collective leadership approaches and critical perspectives to theories of practice and communicative constitution of organization. The second section focuses on reviewing the latest research on leadership communication in various organizational contexts, such as work teams, hybrid, and virtual work contexts, and interorganizational collaboration. Informed by diverse theoretical perspectives, chapters in the final section examine the practice of leadership communication in dealing with both common and novel organizing challenges and processes, for example, the formation and execution of organizational vision and strategies, the use of emerging media technologies, and organizational decision making. The handbook will be an indispensable resource for researchers and advanced students in leadership communication and leadership studies, and practicing managers and consultants in leadership and communication training and development.

Work Less Jon Peirce, 2024-01-02 You can't have a healthy economy with an unhealthy workforce. Work Less proposes ways to reduce work hours and keep workers happier, healthier, and more productive. Recent years have revealed just how stressed out many workers are. While the trend to longer hours has been developing for several decades, the trend's effects have been aggravated during the pandemic by the growing use of Zoom and other new technologies for meetings with clients, customers, and co-workers. Exhausted and fed up, today's workers are starting to insist

on shorter hours and greater flexibility as to where they do their work There is growing consensus that the forty hour week the norm since the 1940s has outlived its usefulness And there is an urgent need for new work schedules that adequately reflect the far greater intensity of work today as well as the greater family demands on a labour force made up of almost fifty percent women who bear the brunt of domestic duties Work Less offers practical scheduling suggestions to employers and workers and numerous policy options for government policy makers to improve working conditions The Holistic Career Coaching Handbook Rob Nathan,2025-04-08 Exclusion from the workplace not only has devastating effects on individual well being and public health but also limits organisational development and social cohesion This book promotes an understanding of the strengths of people with diverse attributes transforming a sense of being overlooked by employers to being a valued asset This handbook provides tools for people to respond respectfully to the way employees experience their working lives It guides the reader to realise the potential strengths of employees regardless of their background life situation mental health or neurological condition and appreciate the impact of emotions on their contribution to and experience of work Other books look at organisational reasons for motivation this book addresses the emotional effect of significant change outside the workplace that has an impact on motivation at work Chapters cover neurodiversity parental coaching Career Returners menopause and the impact of different life stages This practical book uses cases and summaries throughout and has chapters on creating a successful programme of career support together with 15 original Career Tools It is particularly relevant to Human Resources Learning and Development and line managers and anyone wanting to develop effective in house career coaching for employees **Peterson's Annual Guides to Graduate Study** ,1979 **The Gardeners' Chronicle** ,1875
