Thank you for sharing that. Could you elaborate on what aspects of those previous tools didn't work out for you?

 10:00
Of course. The main issue we faced was that the previous tools were not user-friendly, both for our team and our customers. The workflow was clunky, and the feedback collection process seemed complicated, leading to a lower response rate from our users.

 10:05
I see, usability is critical when it comes to gathering user feedback. At WinAI we've put a strong emphasis on creating an intuitive platform. Would you mind sharing your expectations from Supply, and what challenges did you encounter?
