allowing nomads to work from home Companies are recognising the potential of this new method of working and the first areas to embrace the new way of working are the legal ones However it is not just the legal firms and public sector which are looking to employment technology in order to cut costs Almost every type of industry is looking at using technology in order to lower costs and in this way increase profits For example restaurants are using recruitment technology in order to lower salaries and costs Until a few years ago when every restaurant had a fixed cost of hiring training and maintenance the vast majority of restaurants were able to pay 100% of their employees salaries This meant that it was possible to pay a manager less than a waiter and save money However with the inclusion of recruitment technology the cost of hiring employees is being cut by up to 50% This does not necessarily mean that the amount of profit is increased but employees are able to be assigned to different tasks meaning that they spend less time in front of customers thus increasing their profits Interested to know more Then Scroll up Click on Buy now with 1 Click and Get Your Copy Now [How to Become a Digital Nomad at Any Age](#) Vicky Wells, Geoff Wells, 2019-07-30 This book is divided into three sections Section One The Digital Nomad We explore how and why being a digital nomad is a different type of lifestyle than being a tourist In addition we examine different ways to satisfy your dreams of travel regardless of your age There are many challenges to living a nomadic lifestyle even for only short periods of time We talk about dealing with different cultures languages customs and also practical considerations like electrical standards SIM cards and metric versus Imperial measurements We cover drugs prescription and recreational local transportation sexual orientation and numerous other subjects you need to think about before beginning your adventures in foreign lands Although many of the subjects covered are also applicable to expats looking to move permanently to another country we don't cover things like obtaining a second passport or tax considerations Section Two Pet House Sitting This is a practical look at how a digital nomad can include pet and house sitting in your lifestyle to help the high cost of accommodations If you love pets this is certainly something to consider We show you where to find sits how to apply for them and what is expected of you when you are accepted for the assignment All aspects of this fast growing lifestyle are detailed so you can decide whether or not it's a good fit for you Section Three The Digital Part This section is an introduction to online marketing The goal here is to demystify the idea of making money online in order to earn enough income while enjoying your nomadic lifestyle Our emphasis is on making enough money to enjoy the lifestyle not on making millions as an Internet entrepreneur Throughout the book we provide many resources that provide even more information We also include a free clickable resource guide that can be downloaded from our website *Laptop Entrepreneur* Ryan Shannon, 2020-03 If you're like most people chances are you're stressed tired and overworked right now be honest with yourself aren't you That's because with the current employment system you're expected to clock in at 9 am and leave at 5 pm But what does that really mean It means sacrificing eight hours of your day approximately 50% of your waking hours spent at work Eight hours each and every day forty hours a week that you'll never get back And that excludes the time it takes you to commute shower and

get ready Let s go through what a typical work centered schedule looks like Wake up early in the morning get ready in a rush head to work before rush hour work work work back home exhausted and stressed and finally you watch the news and doze off Isn t that routine stressful I know that that s a common routine for many Fortunately becoming a Laptop Entrepreneur is the alternative The best thing about being a Laptop Entrepreneur is that it can be done from anywhere That means you can kiss your 30 minute commute goodbye along with your worries about being late to work Now when you commit to living like a Laptop Entrepreneur you finally have flexibility and a little bit less stress and peace of mind which we all need Being a Laptop Entrepreneur means fitting your schedule to your life whereas being a worker means finding a way to fit your life in between the gaps in your work schedule That s the difference I don t think it takes much elaboration any sane person would prefer a life that s less stressful allowing for more free time than a life that s just work work work We weren t designed to be hidden inside all day there s so much more to life than just making a living As a Laptop Entrepreneur you can finally see the world like you ve always wanted to You ve always been the type to sift through National Geographic magazines hoping someday to visit those far off places But you ve got a job obligations and don t have enough vacation days Guess what When you become a Laptop Entrepreneur every day is a vacation or more accurately a workation You will have to put in some work which I ll go over later but it simply means putting in the work when you want to In Laptop Entrepreneur I ll go over how becoming a Laptop Entrepreneur can save you thousands each year and why it may pay off to travel to a low cost of living country what it takes to become a Digital Nomad and go into details on the four main digital business models to make money online negotiating a remote contract freelancing with a platform like Fiverr or Upwork freelancing independently and running your own virtual business If you re tired of your routine and want to explore a way to live that s focused on freedom rather than slaving away read Laptop Entrepreneur now it could change your life
