*Scale-up in Education: Issues in practice* Barbara L. Schneider, Sarah-Kathryn McDonald, 2007 Scale Up in Education Volume 2 Issues in Practice explores the challenges of implementing and assessing educational interventions in varied classroom contexts Included are reflections on the challenges of designing studies for improving the instructional core

of schools guidelines for establishing evidence of interventions impacts across a wide range of settings and an assessment of national efforts to bring reform to scale in high poverty schools This volume also includes findings and insights from several federally funded research projects charged with bringing conceptual and analytic rigor to studies of successful scale up All of the chapters address the challenges of conducting scientific research in schools and provide insights for obtaining the support of teachers and school administrators The result is a highly readable volume ideally suited for educators interested in the issues that inform intervention research researchers concerned with designing practical studies that are methodologically sound and policymakers engaged in evidence based school reform

### **Reading and Reader Development**

Judith Elkin, Briony Train, Debbie Denham, 2003 Reader development focuses on readers rather than reading skills The purposes of reader development are to enhance the reading experience to make it a more pleasurable and creative act for the reader to increase people's confidence in their reading and to make reading a more communal activity by bringing readers together to share their experiences The focus of reader development is pleasure reading which the authors interpret as reading fiction They observe that public libraries were not at the forefront of this movement but librarians are responding by changing library culture to focus on readers rather than books The ways in which librarians responded and additional responses they could undertake are described within the context of the broader social movements in the United Kingdom to promote reader development Three themes dominate the chapters First the authors tirelessly celebrate reading Reading is good Reading will make one happy Reading elevates The second theme is opportunism If society is paying attention to reading librarians should get on board and seize the opportunity to build their status and to secure the place of libraries as critically important institutions The third theme is social inclusiveness Librarians should always keep in mind the political dimensions of public library service and assure that all sectors of the populations share in the benefits of library service Readers in search of guidance concerning what librarians should do will find plenty of that here EDITOR Dwell, 2005-01 At Dwell we're staging a minor revolution We think that it's possible to live in a house or apartment by a bold modern architect to own furniture and products that are exceptionally well designed and still be a regular human being We think that good design is an integral part of real life And that real life has been conspicuous by its absence in most design and architecture magazines **Willing's Press Guide and Advertisers' Directory and Handbook**, 2002 PC AI, 2001
