A Human Algorithm Flynn Coleman, 2019-10-01 A groundbreaking narrative on the urgency of ethically designed AI and a guidebook to reimagining life in the era of intelligent technology The Age of Intelligent Machines is upon us and we are at a reflection point The proliferation of fast moving technologies including forms of artificial intelligence akin to a new species will cause us to confront profound questions about ourselves The era of human intellectual superiority is ending and we need to plan for this monumental shift A Human Algorithm How Artificial Intelligence Is Redefining Who We Are examines the immense impact intelligent technology will have on humanity These machines while challenging our personal beliefs and our socioeconomic world order also have the potential to transform our health and well

being alleviate poverty and suffering and reveal the mysteries of intelligence and consciousness International human rights attorney Flynn Coleman deftly argues that it is critical that we instill values ethics and morals into our robots algorithms and other forms of AI Equally important we need to develop and implement laws policies and oversight mechanisms to protect us from tech s insidious threats To realize AI s transcendent potential Coleman advocates for inviting a diverse group of voices to participate in designing our intelligent machines and using our moral imagination to ensure that human rights empathy and equity are core principles of emerging technologies Ultimately A Human Algorithm is a clarion call for building a more humane future and moving conscientiously into a new frontier of our own design Coleman argues that the algorithms of machine learning if they are instilled with human ethics and values could bring about a new era of enlightenment San Francisco Chronicle

The Rise of Metacreativity Eduardo Navas,2022-11-18 This book brings together history and theory in art and media to examine the effects of artificial intelligence and machine learning in culture and reflects on the implications of delegating parts of the creative process to AI In order to understand the complexity of authorship and originality in relation to creativity in contemporary times Navas combines historical and theoretical premises from different areas of research in the arts humanities and social sciences to provide a rich historical and theoretical context that critically reflects on and questions the implications of artificial intelligence and machine learning as an integral part of creative production As part of this the book considers how much of postproduction and remix aesthetics in art and media preceded the current rise of metacreativity in relation to artificial intelligence and machine learning and explores contemporary questions on aesthetics The book also provides a thorough evaluation of the creative application of systematic approaches to art and media production and how this in effect percolates across disciplines including art design communication as well as other fields in the humanities and social sciences An essential read for students and scholars interested in understanding the increasing role of AI and machine learning in contemporary art and media and their wider role in creative production across culture and society
