Do you unlock your cell phone using your fingerprint or with facial recognition? Do you shop using your bank card on the Internet or with contactless technology in stores? Do you ever wonder what it means that some messaging platforms encrypt your messages end-to-end? Information security is increasingly important in our hyper-connected lives, but we are not always aware of it, nor do we know how mechanisms work that can be very convenient to use but overwhelmingly complex to understand. Basic Handbook of

Bibliografía española, 2006 *Seguridad de la información* José María Molina Mateos, 2000 *Escrituras silenciadas* José Francisco Forniés Casals, Paulina Numhauser, 2013 Al hablar de Escrituras Silenciadas nos referimos a todos aquellos textos y testimonios que han sido censurados ocultados prohibidos o en pocas palabras acallados a lo largo del tiempo y los que al ser descubiertos e integrados en sus respectivas investigaciones permiten al estudioso romper discursos contruidos de larga data y replantear viejos problemas Precisamente esta capacidad de innovación resulta ser el mayor atractivo que tiene el presente libro donde por primera vez hemos querido incorporar artículos que plantean problemas desde la perspectiva de las nuevas tecnologías de sus silencios y prohibiciones sin olvidar el impacto que ellas tienen en las investigaciones en curso al facilitar el acceso a textos hasta ahora fuera del alcance de los investigadores Las Escrituras Silenciadas pertenecen a ese tipo de temas primarios y esenciales que nadie desconoce pues están presentes de manera persistente y clara en nuestra vida cotidiana Baste recordar cómo día a día la prensa nos informa de nuevos documentos que salen a luz y que nos demuestran ante nuestro estupor que detrás de la idea que nos habíamos construido de la realidad se esconden grandes espacios vacíos que el poder en sus diferentes manifestaciones nos ha querido ocultar Curiosamente esta política de cercenar nuestros derechos y capacidades a documentarnos sin trabas sobre los problemas que nos afectan resulta ser un asunto poco analizado y discutido en la academia donde en muy escasas ocasiones el problema se ha explorado en toda su dimensión y trascendencia El presente libro espera contribuir a subsanar esta carencia *Milenio*, 2002
