New York, NY 10011

"That we are living through a time of unprecedented crisis is widely acknowledged. What is less certain is whether this crisis is one of the crises endemic to the capitalist world system, or a terminal crisis that signals the collapse of life as we know it."

**A public talk
by Arif Dirlik**

Arif Dirlik was on the faculty at Duke University and more recently was the Knight Professor of Social Science at the University of Oregon. He has published extensively on the formation of the Chinese Communist Party, the history of Chinese anarchism, and post-colonial globalism.

Crisis And Criticism:

Crisis and Criticism Alick West, 1937 *Crisis and Criticism* Benjamin Noys, 2023-12-28 Crisis and Criticism is a series of interventions from 2009 to 2021 engaging with the literary cultural and political responses to the capitalist crisis of 2007 8 Challenging the tendency to treat crisis as natural and beyond human control this book interrogates our cultural understanding of crisis and suggests the necessity of ruthless criticism of the existing world While responses to crisis have retreated from the critical choosing to inhabit apocalyptic fantasies instead only a critical understanding of the causes of crisis within capitalism itself can promise their eventual overcoming *The Crisis in Criticism* William E. Cain, 1984 This book is a statement of my views on a number of problems in literary theory and contemporary criticism But it is also as any theoretical study must be a progress report a record of inquiry that has not yet concluded In a sense a book on theory cannot really end At a certain point work on it ceases even though one continues to think critically and skeptically about the problems and the solutions that the book contains Preface p xi *Crisis and Criticism, and Selected Literary Essays* Alick West, 1978 **Crisis Under Critique** Didier Fassin, Axel Honneth, 2022-04-13 The word crisis denotes a break a discontinuity a rupture a moment after which the normal order can continue no longer Yet our political vocabulary today is suffused with the rhetoric of crisis to the point that supposed abnormalities have been normalized How can the notion of crisis be rethought in order to take stock of and challenge our understanding of the many predicaments in which we find ourselves Instead of diagnosing emergencies Didier Fassin Axel Honneth and an assembly of leading thinkers examine how people experience interpret and contribute to the making of and the response to critical situations Contributors inquire into the social production of crisis evaluating a wide range of cases on five continents through the lenses of philosophy sociology anthropology political science history and economics Considering social movements intellectual engagements affected communities and reflexive perspectives the book foregrounds the perspectives of those most closely involved bringing out the immediacy of crisis Featuring analysis from below as well as above from the inside as well as the outside *Crisis Under Critique* is a singular intervention that utterly recasts one of today's most crucial yet most ambiguous concepts *The Crisis of Criticism* Maurice Berger, 1998 This collection of essays on the nature of art critics authority and responsibilities addresses questions such as whether some art is beyond criticism and how critics can bridge the gap between the art community and the general public Critique and Crisis Reinhart Koselleck, 2000-03-13 Critique and Crisis established Reinhart Koselleck's reputation as the most important German intellectual historian of the postwar period This first English translation of Koselleck's tour de force demonstrates a chronological breadth a philosophical depth and an originality which are hardly equalled in any scholarly domain It is a history of the Enlightenment in miniature fundamental to our understanding of that period and its consequences Like Tocqueville Koselleck views Enlightenment intellectuals as an uprooted unrealistic group of onlookers who sowed the seeds of the modern political tensions that first flowered in the French Revolution He argues that it

was the split that developed between state and society during the Enlightenment that fostered the emergence of this intellectual elite divorced from the realities of politics Koselleck describes how this disjunction between political authority proper and its subjects led to private spheres that later became centers of moral authority and eventually models for political society that took little or no notice of the constraints under which politicians must inevitably work In this way progressive bourgeois philosophy which seemed to offer the promise of a unified and peaceful world in fact produced just the opposite The book provides a wealth of examples drawn from all of Europe to illustrate the still relevant message that we evade the constraints and the necessities of the political realm at our own risk Critique and Crisis is included in the series Studies in Contemporary German Social Thought edited by Thomas McCarthy **The Crisis in Criticism** Donald Carswell, Catherine MacFarlane Carswell, 1933 Crisis and Criticism and Selected Essays Alick West, 1975 The Persistence of Critical Theory Gabriel R. Ricci, 2017-07-05 The latest volume of Culture and Civilization gathers contemporary exponents of critical theory specifically those based in the Frankfurt School of social thinking Collectively this volume demonstrates the continuing intellectual viability of critical theory which challenges the limits of positivism and materialism We may question how the theoretical framework of Marxism fails to coordinate with the conditions that defined labor forces as did Max Horkheimer and Theodor Adorno or deliberate on the conditions that justify the claims we make through public discourse as did Jurgen Habermas Or like Axel Honneth we may reflect on recognition theory as a means of addressing social problems Whatever our objective the focus of critical theory continues to be the consciousness of established positive interests that without debate may sustain injustices or conditions which the public may not have chosen to impose Throughout the hardship of punitive dismissal and exile in the 1930s and 40s and the shock of the New Left in the 1960s and 70s and finally the later linguistic and pragmatic turn the Frankfurt School has sustained the idea that people escape disaffection and alienation when their knowledge of the social and political world is dialectically mediated through creative interaction This new volume in the Culture and Civilization series continues the tradition of critical thought *Feminism, Capitalism, and Critique* Banu Bargu, Chiara Bottici, 2017-07-24 This edited collection examines the relationship between three central terms capitalism feminism and critique while critically celebrating the work and life of a thinker who has done the most to address this nexus Nancy Fraser In honor of her seventieth birthday and in the spirit of her work in the tradition of critical theory this collection brings together scholars from different disciplines and theoretical approaches to address this conjunction and evaluate Fraser's lifelong contributions to theorizing it Scholars from philosophy political science sociology gender studies race theory and economics come together to think through the vicissitudes of capitalism and feminism while also responding to different elements of Nancy Fraser's work which weaves together a strong feminist standpoint with a vibrant and complex critique of capitalism Going beyond conventional disciplinary distinctions and narrow debates all the contributors to this project share a commitment to critically understanding the connection between capitalism exploitation and the viable roads for emancipation

They recover insights provided by classical traditions of political and social thought but they also open new research directions adapted to the global challenges of our time A New Political Imagination Tony Fry, Madina

Tlostanova, 2020-11-12 The book presents the case for the making of a new political imagination by offering a critique of existing political institutions philosophy and practices that are unable to provide the thinking means and leadership to deal with the complexity and crises of specific locales and the world at large The authors make clear that there is a fundamental disjuncture between the complexity of the combined critical conditions that are now putting life on Earth at risk and the divisions and theories of knowledge that are dominantly and instrumentally trying to understand the situation In response this work makes the case for the need for a new political imagination that rejects the sufficiency of existing political ideologies including democracy being the end point of politics The book tackles the political underpinnings of social and economic life in a world still embedded in the inequities of the afterlife of colonialism and state socialism Thereafter it engages narratives of change rethinks imagination and critical practices to finally present a relationally connected way to move forward This trans disciplinary volume is directed at those working in political philosophy and epistemology critical global and security studies decoloniality and postcolonial studies design critical anthropology and the post humanities It is accessible to both academic audiences and activists and practitioners **Art and Contemporary Critical Practice** Gerald

Raunig, Gene Ray, 2009 Institutional critique is best known through the critical practice that developed in the late 1960s and early 1970s by artists who presented radical challenges to the museum and gallery system Since then it has been pushed in new directions by new generations of artists registering and responding to the global transformations of contemporary life The essays collected in this volume explore this legacy and develop the models of institutional critique in ways that go well beyond the field of art Interrogating the shifting relations between institutions and critique the contributors to this volume analyze the past and present of institutional critique and propose lines of future development Engaging with the work of philosophers and political theorists such as Michel Foucault Judith Butler Gilles Deleuze Antonio Negri Paolo Virno and others these essays reflect on the mutual enrichments between critical art practices and social movements and elaborate the conditions for politicized critical practice in the twenty first century **The Encyclopedia of Work-related Illnesses, Injuries, and Health Issues** Ada P. Kahn, 2004 Presents articles on health in the workplace including injuries physical and mental illnesses worker s compensation and social issues *The World Today*, 1927 **The Journal of Aesthetics and Art Criticism**, 1948 **Crisis and Critique** Rodrigo Cordero, 2016-07-15 Fragility is a condition that inhabits the

foundations of social life It remains mostly unnoticed until something breaks and dislocates the sense of completion In such moments of rupture the social world reveals the stuff of which it is made and how it actually works it opens itself to question Based on this claim this book reconsiders the place of the notions of crisis and critique as fundamental means to grasp the fragile condition of the social and challenges the normalization and dissolution of these concepts in contemporary social

theory It draws on fundamental insights from Hegel Marx and Adorno as to recover the importance of the critique of concepts for the critique of society and engages in a series of studies on the work of Habermas Koselleck Arendt and Foucault as to consider anew the relationship of crisis and critique as immanent to the political and economic forms of modernity Moving from crisis to critique and from critique to crisis the book shows that fragility is a price to be paid for accepting the relational constitution of the social world as a human domain without secure foundations but also for wishing to break free from all attempts at giving closure to social life as an identity without question This book will engage students of sociology political theory and social philosophy alike
