Critical Issues In Israeli Society:

Critical Issues in Israeli Society Alan Dowty, 2004-01-30 Fashioning a working political structure in Israel that will bring together all aspects of society from Jews to Arabs ultra Orthodox to assertively secular has never been easy However two developments have intensified this challenge demographic changes have sharpened the differences between the groups and open challenges of legitimacy have undermined the previous de facto acceptance of pluralism There has been no strong civic framework of Israeliness to replace Zionism as a shared identity that would override more parochial identities and interests Added to these pressures are the collapse of the peace process in late 2000 and the influence of global developments on the Arab Israel conflict and on Israeli domestic society In this volume twelve noted scholars of Israel present authoritative and analytic overviews of these important issues The ability of the Israeli political system to bridge differences through a Jewish tradition of power sharing has in the past managed to overcome enormous divisions at least within the Jewish sector Economic progress and globalization have brought Israel closer to other developed societies in many respects while exposing Israel to pressures associated with these trends Closer analysis of these critical issues reveals that there are also positive forces at work as the nation seeks a broader synthesis of its Jewish legacy and universal liberal values **Studies of Israeli Society: Immigration to Israel : sociological perspectives**, 1998 Israel Daniel Gordis, 2016-10-18 Winner of the Jewish Book of the Year Award The first comprehensive yet accessible history of the state of Israel from its inception to present day from Daniel Gordis one of the most respected Israel analysts The Forward living and writing in Jerusalem Israel is a tiny state and yet it has captured the world's attention aroused its imagination and lately been the object of its opprobrium Why does such a small country speak to so many global concerns More pressingly Why does Israel make the decisions it does And what lies in its future We cannot answer these questions until we understand Israel's people and the questions and conflicts the hopes and desires that have animated their conversations and actions Though Israel's history is rife with conflict these conflicts do not fully communicate the spirit of Israel and its people they give short shrift to the dream that gave birth to the state and to the vision for the Jewish people that was at its core Guiding us through the milestones of Israeli history Gordis relays the drama of the Jewish people's story and the creation of the state Clear eyed and erudite he illustrates how Israel became a cultural economic and military powerhouse but also explains where Israel made grave mistakes and traces the long history of Israel's deepening isolation With Israel public intellectual Daniel Gordis offers us a brief but thorough account of the cultural economic and political history of this complex nation from its beginnings to the present Accessible levelheaded and rigorous Israel sheds light on the Israel's past so we can understand its future The result is a vivid portrait of a people and a nation reborn *Israel and the Post-Zionists* Shlomo Sharan, 2003 An examination of the dimensions and implications of the anti Zionists struggle against Israel as a Jewish nation In a rebuttal of post Zionist claims Zionism's vitality is shown to be pivotal in debates about Jewry's national and cultural existence and the future direction of
