Latin America and Global Capitalism William I. Robinson, 2008-11-24 2009 Best Book International Political Economy Group of the British International Studies Association This ambitious volume chronicles and analyzes from a critical globalization perspective the social economic and political changes sweeping across Latin America from the 1970s through the present day Sociologist William I Robinson summarizes his theory of globalization and discusses how Latin America s political economy has changed as the states integrate into the new global production and financial system focusing specifically on the rise of nontraditional agricultural exports the explosion of maquiladoras transnational tourism and the export of labor and the import of remittances He follows with an overview of the clash among global capitalist forces neoliberalism and the new left in Latin America looking closely at the challenges and dilemmas resistance movements face and their prospects for success Through three case studies the struggles of the region s indigenous peoples the immigrants rights movement in the United States and the Bolivarian Revolution in Venezuela Robinson documents and explains the causes of regional socio political tensions provides a theoretical framework for understanding the present turbulence and suggests possible outcomes to the conflicts Based on years of fieldwork and empirical research this study elucidates the tensions that globalization has created and shows why Latin America is a battleground for those seeking to shape the twenty first century s world order

Globalization in Crisis Barry K. Gills, 2013-09-13 This book analyses the present global financial and economic crisis the most severe in nearly a century and a wider set of multiple and converging crises with aspects and repercussions that go well beyond the current economic climate Written by some of the world s leading international scholars in the field of Globalization studies and related disciplines this important collection addresses numerous key aspects of the relationship between Globalization and global crises past present and future It sheds new light and understanding on the concept and theory of Globalization and of crisis The authors explore such issues as global finance and financial regulation neoliberal ideology and policy the crisis of globalization the decline of Western hegemony world systemic crisis the moral crisis of Western capitalism environmental and climate change crises world order hyper violence and the international system a crisis of the global modern and a global civilisational and hostpric crisis the rise of the global South the historical dialectics of capital and social responses to crisis the future of capitalism and the prospects for transformative alternatives This book was published as a special issue of Globalizations

Critical Rationalism and Globalization Masoud Mohammadi Alamuti, 2015-03-24 Critical Rationalism and Globalization addresses how the access to critical reason enables people to shape a new social order on a global scale This book demonstrates how the philosophy of critical rationalism contributes to

the sociology of Globalization through uncovering the role of critical reason in arriving at an agreement on common values and institutions on a global scale It discusses how value consensus on the institutions of sovereignty and inter state law has prepared the ground for the rise of a global system of national societies after the end of World War II Masoud Alamuti argues that uneven openness of national economies to global trade and investment should be comprehended in the framework of the post war legal and political context Using the concept of rationality as openness to criticism the book proposes a normative theory of open global society in order to show that the existing value consensus on the cult of sovereignty suffers from the recognition of the possibility of rational dialogue among competing ways of the good life Masoud Alamuti argues that once the people of the world across national communities open their fundamental ways of the good life to mutual criticism they can create common global values necessary for the rise of a just social order on a global scale This book will be of interest to students and scholars of Globalization Studies Global Sociology and International Relations Whither Globalization? James H. Mittelman, 2004-10-21 Globalization is usually said to be about markets power and culture This innovative book goes further arguing that globalization may also be understood as a way of knowing and representing the world Mittelman debunks several prevalent myths about globalization and anti globalization presenting alternatives to this force and indicating the prospects for a new common sense about future world order Drawing on considerable original research this book shows how globalization itself and globalization studies have changed since 9 11 Compact and accessible Whither Globalization is a major contribution to the study of globalization by one of the leading scholars in the field and is essential reading for students of international relations and international political economy *The Essential Guide to Critical Development Studies* Henry Veltmeyer, Paul Bowles, 2017-07-20 In recent years much mainstream development discourse has sought to co opt and neutralize key concepts relating to empowerment participation gender sustainability and inclusivity in order to serve a market driven neoliberal agenda Critical development studies now play a crucial role in combatting this by analyzing the systemic changes needed to transform the current world to one where economic and social justice and environmental integrity prevail *The Essential Guide to Critical Development Studies* takes as its starting point the multiple crises economic political social and environmental of the dominant current global capitalist system The chapters collectively document and analyze these crises and the need to find alternatives to the system s that generate them To do so analyses of class gender and empire are placed at the centre of discussion in contrast to markets liberalization and convergence which characterize mainstream development discourse Each contributor supplements their overview with a guide to the critical development studies literature on the topic thereby providing scholars and students not only with a precis of the key issues but also a signpost to further readings This is an important resource for academics researchers policymakers and professionals in the areas of development studies political science sociology economics gender studies history anthropology agrarian studies international relations and international political economy **Postcolonialism, Multitude, and the**

Politics of Nature Ari Aukusti Lehtinen, 2006-04-04 Postcolonialism Multitude and the Politics of Nature explores the latest developments of Nordic human geography in the Finnish Russian Greenbelt also known as the Fennoscandian Greenbelt located at the long north south border between Finland and Russia Through case studie *Globalization* Jan Aart Scholte, 2017-03-16 This highly acclaimed bestselling textbook quickly established itself as one of the leading texts on the subject worldwide in its 1st edition Now substantially revised and updated Scholte provides students with a comprehensive introduction to globalization and questions why this phenomenon has occurred to what extent it changes the world and whether it is a force for good or ill Accessibly written by a leading authority both as an academic researcher and a policy consultant this second edition draws on the author s research in more than 20 countries over 5 continents Split into 3 parts the text first outlines a critical framework for understanding globalization before exploring its impact on society and the key debates surrounding its normative impact Exploring questions such as what globalization is how it has emerged and what effect it has had on society this text is essential reading for undergraduate and postgraduate students seeking a thorough study of globalization New to this Edition A broader perspective on all the dimensions of globalization Makes use of the extensive new data and research findings since the first edition was released Draws more widely from other fields such as Business Studies Law and Economics **Introducing Globalization Theories** Prof. Manfred B. Steger, 2025-03-11 Since the explosion of the buzzword globalization in academic and public discourse more than thirty years ago theoretical explorations of worldwide interconnectivities and mobilities have proliferated across major academic disciplines Introducing Globalization Theories is a short yet comprehensive primer to major globalization theories from the 1990s to the present This accessible volume explains how globalization frameworks have been assembled by influential thinkers who employ different modes of inquiry Short summaries illustrations and a supplemental guide to further reading equip students with tools to assess the strengths and weaknesses of each theory Intersecting with relevant contemporary themes such as inequality and ecology the book also highlights and features postcolonial and Indigenous globalization theories that challenge Western centric views and point to a more equitable world *Environment and Planning* , 2005 [Knowledge & Power in the Global Economy](#) David Gabbard, 2008 The second edition of Knowledge and Power in the Global Economy examines how neoliberal and neoconservative policies are working in tandem to privatize and commercialize public schools It looks at how these policies and the agendas behind them have impacted the internal dynamics of school management teaching and learning as well as how they have transformed the external dynamics of education from a public good or service offered to serve public interests to a private enterprise primarily serving private interests In addition to information critique and analysis multiple perspectives are provided that readers can draw upon to formulate an alternative vision of education as a crucial element of social change along democratic and egalitarian lines The first edition of this volume provided a critical encyclopedic approach to the rhetoric of educational reform as it developed from the 1980s through the 1990s critiquing its vocabulary

elaborating the multiplicity of ways that the logic of neoliberalism and the emerging patterns of high stakes testing and accountability were impacting the curriculum and introducing ideas associated with alternative and liberatory educational projects Since its publication in 2000 policy developments such as the No Child Left Behind Act of 2001 in the U S and others in the U K and other parts of the world have nationalized and intensified these patterns deepening the logic and extent of neoliberalism s hold over educational reforms At the same time it is impossible to understand the current crises in education solely in terms of neoliberalism the impact of neoconservatism must also be considered Hence this second edition has a new subtitle *The Effects of School Reform in a Neoliberal Neoconservative Age* This edition is structured around five themes Political and Social Foundations Anti Educational Foundations The Set Up Anti Educational Foundations The Trap Classroom Consequence Democracy s Path This volume will particularly interest scholars and professionals across the fields of educational foundations curriculum theory and educational policy and is well suited as a text for courses in these areas

The Routledge Handbook of Transformative Global Studies S. A. Hamed Hosseini, James Goodman, Sara C. Motta, Barry K. Gills, 2020-06-09 The Routledge Handbook of Transformative Global Studies provides diverse and cutting edge perspectives on this fast changing field For 30 years the world has been caught in a long global interregnum plunging from one crisis to the next and witnessing the emergence of new vibrant multiple and sometimes contradictory forms of popular resistance and politics This global interregnum or a period of uncertainty where the old hegemony is fading and the new ones have not yet been fully realized necessitates critical self reflection brave intellectual speculation and un learning of perceived wisdoms and greater transdisciplinary collaboration across theories localities and subjects This Handbook takes up this challenge by developing fresh perspectives on globalization development neoliberalism capitalism and their progressive alternatives addressing issues of democracy power inequality insecurity precarity wellbeing education displacement social movements violence and war and climate change Throughout it emphasizes the dynamics for system change including bringing post capitalist feminist de colonial and other critical perspectives to support transformative global praxis This volume brings together a mixture of fresh and established scholars from across disciplines and from a range of both Northern and Southern contexts Researchers and students from around the world and across the fields of politics sociology international development international relations geography economics area studies and philosophy will find this an invaluable and fresh guide to global studies in the 21st century *The Critical Development Studies Handbook* Henry Veltmeyer, 2011 This handbook provides a clear and accessible introduction to the field of critical development studies Each short chapter is written by a well known specialist and provides a succinct discussion of central issues in the field The Spread of Islam in West Africa Pade Badru, 2006 This book on Islam and Islamic cultures focuses on the practice of Islam among indigenous people of West Africa The author shows the importance of the sub region in the development of Islam by documenting the long history of the religion in Black Africa New ground is broken by analyzing the increasing impact of globalization and

economic underdevelopment on the Islamic experience in West Africa **Berkeley La Raza Law Journal** ,2001 Borders of Global Theory - Reflections from Within and Without Barrie Axford,2017-07-12 Global Theory from Within and Without is a critical examination of the concept of globalization There are in sociological theory many definitions of globalization Sociological theory constructs a new theory of globalization starting from the structural changes of social systems at the beginning of the 21th century The research subject is the ongoing connection of global studies and the research program of multiple modernities The structural change is initiated by growing pace and different intensities of social exchange of the subsystems of societal communication in contemporary societies The studies of global scholarship show that the structural change is not an indicator of any unified constitution of social systems Journal of Appalachian Studies ,2002

Thorstein Veblen's Contribution to Environmental Sociology Ross E. Mitchell,2007 Features essays that focuses on the life thought and writings of Thorstein Bunde Veblen 1857 1929 the American political economist and sociologist This volume examines Veblen s potential contributions to the subfield of political ecology from several diverse yet complementary angles including his take on wasteful industrialism Global Nomads Anthony D'Andrea,2007 Global Nomads provides a unique introduction to the globalization of countercultures a topic largely unknown in and outside academia Anthony D Andrea examines the social life of mobile expatriates who live within a global circuit of countercultural practice in paradoxical paradises Based on nomadic fieldwork across Spain and India the study analyzes how and why these post metropolitan subjects reject the homeland in order to shape an alternative lifestyle They become artists therapists exotic traders and bohemian workers seeking to integrate labor mobility and spirituality within a cosmopolitan culture of expressive individualism These countercultural formations however unfold under neo liberal regimes that appropriate utopian spaces practices and imaginaries as commodities for tourism entertainment and media consumption In order to understand the paradoxical globalization of countercultures Global Nomads develops a dialogue between global and critical studies by introducing the concept of neo nomadism which seeks to overcome some of the shortcomings in studies of globalization This book is an essential aide for undergraduate postgraduate and research students of Sociology Anthropology of Globalization Cultural Studies and Tourism Studies

The book delves into Critical Globalization Studies. Critical Globalization Studies is a crucial topic that must be grasped by everyone, from students and scholars to the general public. This book will furnish comprehensive and in-depth insights into Critical Globalization Studies, encompassing both the fundamentals and more intricate discussions.

1. This book is structured into several chapters, namely:

- Chapter 1: Introduction to Critical Globalization Studies
- Chapter 2: Essential Elements of Critical Globalization Studies
- Chapter 3: Critical Globalization Studies in Everyday Life
- Chapter 4: Critical Globalization Studies in Specific Contexts
- Chapter 5: Conclusion

2. In chapter 1, the author will provide an overview of Critical Globalization Studies. This chapter will explore what Critical Globalization Studies is, why Critical Globalization Studies is vital, and how to effectively learn about Critical Globalization Studies.

3. In chapter 2, this book will delve into the foundational concepts of Critical Globalization Studies. This chapter will elucidate the essential principles that need to be understood to grasp Critical Globalization Studies in its entirety.

4. In chapter 3, this book will examine the practical applications of Critical Globalization Studies in daily life. This chapter will showcase real-world examples of how Critical Globalization Studies can be effectively utilized in everyday scenarios.

5. In chapter 4, this book will scrutinize the relevance of Critical Globalization Studies in specific contexts. The fourth chapter will explore how Critical Globalization Studies is applied in specialized fields, such as education, business, and technology.

6. In chapter 5, the author will draw a conclusion about Critical Globalization Studies. The final chapter will summarize the key points that have been discussed throughout the book.

This book is crafted in an easy-to-understand language and is complemented by engaging illustrations. It is highly recommended for anyone seeking to gain a comprehensive understanding of Critical Globalization Studies.
