The Battle of the Classics Eric Adler, 2020 This book analyzes crucial episodes in the history of American higher education in order to discover the best way to rescue the humanities. It urges apologists to stop focusing on the humanistic disciplines as inculcators of poorly defined skills and envisions a globalized approach to education based on humanistic masterworks. **Encyclopedia of American Literature** Manly, Inc., 2013-06 Susan Clair Imbarrato, Carol Berkin, Brett Barney, Lisa Paddock, Matthew J. Bruccoli, George Parker Anderson, Judith S. **American Conservatism** Bruce Frohnen, Jeremy Beer, Nelson O. Jeffrey, 2014-05-20 A must-own title. *National Review Online* American Conservatism An Encyclopedia is the first comprehensive reference volume to cover what is surely the most influential political and intellectual movement of the past half century. More than fifteen years in the making and more than half a million words in length, this informative and entertaining encyclopedia contains substantive entries on those persons, events, organizations, and concepts of major importance to postwar American conservatism. Its contributors include iconic patriarchs of the conservative and libertarian movements, celebrated scholars, well-known authors, and influential movement activists and leaders. Ranging from abortion to Zoll, Donald Atwell, and written from viewpoints as various as those which have informed the postwar conservative movement itself, the encyclopedia's more than 600 entries will orient readers of all kinds to the people and ideas that have given shape to contemporary American conservatism. This long-awaited volume is not to be missed.

The Harvard-Yenching Institute and Cultural Engineering Shuhua Fan, 2014-08-21 Through an empirical, multi-archival study of a transnational foundation, the Harvard-Yenching Institute (HYI) from the 1920s to the early 1950s, this book presents the story of transplanting Western American humanities scholarship into Asia, China, and addresses central questions in U.S.-China relations. This book focuses on the HYI's programs in teaching, research, and publication of Chinese humanities within China to the early 1950s and to a lesser extent its activities at Harvard that had close ties with its China side. Through the HYI story, the author examines in depth the cooperation, tensions, adaptation, and integration in the operation, management, and governance of the HYI's programs on both sides of the Pacific and the complex, multi-layered interactions between

American educators and their Chinese partners treating each side sympathetically but without losing sight of the big picture As the first comprehensive study on the subject the book adopts a concept of cultural engineering which is defined as a conscious design to use cultural heritage to recreate culture in order to promote a society s development to look at key issues in a way which accounts for interactions and initiatives on both sides and shows the difficult path toward developing common interests without neglecting tensions and conflicts thus going beyond the various one sided historiographies which pit Chinese against Americans or nativist rejection of modernity against cultural imperialism The HYI experience in China from the 1920s to the early 1950s resonates down to the present day in American relations with the world The United States faces many similar challenges in the Middle East Asia Africa and Latin America today as in revolutionary China of the 1920s to 1950s Therefore this study offers a window onto many issues relating to cross cultural interactions today especially between the United States and non Western nations **Science, Democracy, and the American University** Andrew
