British Romanticism and the Critique of Political Reason

Timothy Michael, 2016 Romantic writers responded to the challenges of reform and revolution by rethinking the scope of political reason. What role should reason play in the creation of a free and just society? Can we claim to know anything in a field as complex as politics? And how can the cause of political rationalism be advanced when it is seen as having blood on its hands? These are the questions that occupied a group of British poets, philosophers, and polemicists in the years following the French Revolution. Timothy Michael argues that much literature of the period is a trial or a critique of reason in its political capacities and a test of the kinds of knowledge available to it. For Wordsworth, Coleridge, Shelley, Burke, Wollstonecraft, and Godwin, the historical sequence of revolution, counter-revolution, and terror in France and radicalism and repression in Britain occasioned a dramatic reassessment of how best to advance the project of enlightenment. The political thought of these figures must be understood. Michael contends in the context of their philosophical thought. Major poems of the period, including *The Prelude*, *The Excursion*, and *Prometheus Unbound*, are in this reading an adjudication of competing political and epistemological claims. This book bridges for the first time two traditional pillars of Romantic studies: the period's politics and its theories of the mind and knowledge. Combining literary and intellectual history, it provides an account of British Romanticism in which high rhetoric, political prose, poetry, and poetics converge in a discourse of enlightenment and emancipation.

Critique of Political Reason Régis Debray, 1983-05-01 Régis Debray's major new work is an exploration of the foundations and limits of political discourse and action. Focusing with his familiar verve and fluency on the mechanism through which ideologies mobilize historical subjects, Debray argues that there is a common pattern in all great political or religious movements. Each possesses an apparatus that releases affective charges of belonging and closure; each is tended by bodies of functionaries who maintain its continuity and transmit its doctrines. The great mobilizing ideologies—Christianity, Islam, Marxism—deploy corps of priests, teachers, cadres. The real foundation of political reason, for Debray, lies in the human need to participate in closed groups, denying or mitigating the harshness of the external world and the fact of death.

Foucault's Analysis of Modern Governmentality Thomas Lemke, 2019-02-26 Lemke offers the most comprehensive and systematic account of Michel Foucault's work on power and government from 1970 until his death in 1984. He convincingly argues, using material that has only partly been translated into English, that Foucault's concern with ethics and forms of subjectivation is always already integrated into his political concerns and his analytics of power. The book also shows how the concept of government was taken up in different lines of research in France before it gave rise to governmentality studies in the Anglophone world. *A Critique of Political Reason: Foucault's Analysis of Modern Governmentality* provides a clear and well-structured exposition that is theoretically challenging but also accessible for a wider audience. Thus the book can be read both as an original examination of Foucault's concept of government and as a general introduction to his

genealogy of power **The Unpolitical** Massimo Cacciari, 2009 Massimo Cacciari is one of the leading public intellectuals in today's Italy. This collection of essays on political topics provides the best introduction in English to his thought to date. This carefully curated collection includes chapters on Hofmannsthal, Lukács, Benjamin, Nietzsche, Weber, Derrida, Schmitt, Canetti, and Aeschylus. Written between 1978 and 2006, these essays engagingly address the most hidden tradition in European political thought: the unpolitical. Far from being a refusal of politics, *The Unpolitical* represents a merciless critique of political reason and a way out of the now impracticable consolations of utopia and harmonious community. A lucid and engaging Introduction by Alessandro Carrera sets these essays in the context of Cacciari's work generally and in the broadest context of its historical and geographical backdrop.

The Critique of Political Reason in Friedrich Hayek and Michel Foucault Bryan Randall Register, 2003 The Political David Ingram, 2002-01-21 *The Political* is a collection of readings by the most important political philosophers representing the six major schools of Continental philosophy: Phenomenology, Existentialism, Critical Theory, Poststructuralism, Postmodernism, and Postcolonialism.

Borders of a Lip Jan Plug, 2012-02-01 This book recasts questions about the overlapping boundaries of language, history, and politics that have been at the center of critical and theoretical debates in the study of Romantic literature and thought. While poststructuralism and deconstruction have been accused of privileging language over history, the New Historicism and other historicist and cultural approaches to literature have attempted to restore history's place in the study of literature. Taking its title from a reading of the word *Lippe* in Kleist's *Die Hermannsschlacht*, *Borders of a Lip* is drawn to neither of these poles but instead to their meeting place or coincidence: the site of a border, a political or national boundary, even the boundary that is the political: the lip that is also the place of language. Through readings of Kant, Wordsworth, Kleist, Mary Shelley, Yeats, and Lyotard, the book examines the convergence of language and history that takes place in their work. Instead of placing language and history in absolute opposition, making the border an unbreachable limit, the book explores how crossing these borders redefines the political.

Foucault and the Political Nenos Georgopoulos, 2001 **The Political Ethics of Jean-François Lyotard and Jacques Derrida** Georges de Schrijver, 2010 A genuine political ethics seems to require a universal perspective, and yet we are told that the postmodern age eschews universal perspectives. In this book, Georges De Schrijver argues that the leading proponents of postmodernity have not, as is commonly assumed, abandoned the search for universals. Rather, they have sought to reshape the concept in ways that account for postmodernity's critique. Examining the thought of both Jean-François Lyotard, who prophesies the end of the grand stories, and Jacques Derrida, the leading proponent of deconstruction, De Schrijver comes to the conclusion that each, in his turn, is still in search of the universal. Taking his lead from Kant's unrepresentable Idea, Lyotard holds out hope for a universal expressed through respect for heterogeneity, whereas Derrida arrives at this impossible dream through a critical study of Husserl's phenomenology. The common bond for Lyotard and Derrida is their quest of the unrepresentable. For Lyotard, this comes through a sublime sadness urging him to side with the

silenced party in legal disputes For Derrida the same quest is expressed through a yearning for the impossible things to come a justice that goes beyond legality a reshaping of the international juridical order and a hospitality that is truly unconditional in its reach Underlying the thought of both men is a profound appreciation for their Jewish ethical inheritance an appreciation they learn from Emmanuel Levinas In passing judgment on the new world order both authors go decidedly beyond Kant and thus beyond modernity in reaching for a truly transcultural perspective in this era of globalization
