

THE WORLD'S
GREATEST

CROOKS & CONMEN

At least a very famous, or perhaps famous, man for people with Mr. Capone, the Chicago gangster, and Victor Lombardi, who actually stole the suitcase from me off \$100,000. The gangster must have taken a liking to the president himself, because he spared his life.

Chomsky,2011-07-06 A compelling indictment of the news media's role in covering up errors and deceptions The New York Times Book Review due to the underlying economics of publishing from famed scholars Edward S Herman and Noam Chomsky With a new introduction In this pathbreaking work Edward S Herman and Noam Chomsky show that contrary to the usual image of the news media as cantankerous obstinate and ubiquitous in their search for truth and defense of justice in their actual practice they defend the economic social and political agendas of the privileged groups that dominate domestic society the state and the global order Based on a series of case studies including the media's dichotomous treatment of worthy versus unworthy victims legitimizing and meaningless Third World elections and devastating critiques of media coverage of the U S wars against Indochina Herman and Chomsky draw on decades of criticism and research to propose a Propaganda Model to explain the media's behavior and performance Their new introduction updates the Propaganda Model and the earlier case studies and it discusses several other applications These include the manner in which the media covered the passage of the North American Free Trade Agreement and subsequent Mexican financial meltdown of 1994 1995 the media's handling of the protests against the World Trade Organization World Bank and International Monetary Fund in 1999 and 2000 and the media's treatment of the chemical industry and its regulation What emerges from this work is a powerful assessment of how propagandistic the U S mass media are how they systematically fail to live up to their self image as providers of the kind of information that people need to make sense of the world and how we can understand their function in a radically new way **Roughly Speaking** Harry Charles Witwer,1926 Creating Wealth Robert G.
