determined to place in the hands of similar uninitiated ones something in the nature of a guide This work is therefore intended to give the novice an insight into the game from the point of view both of hunting and of riding so that he may obtain from the sport a full measure of the delights it has to offer The author has had considerable experience in breeding rearing and schooling hunters and has been fortunate in bringing to this work quite extensive observations of many different packs of hounds in European countries as well as in the United States and Canada His chief aim is to encourage this most noble sport for sport s sake to contrast the genuine sportsman with the artificial and to pay to that noblest of animals the horse and especially the hunter a debt of gratitude for many a glorious hour in his company
