Unlocking the Power of AI Myra Roldan, 2024-01-01

Artificial intelligence adoption is accelerating across industries but many learning teams may not be moving the needle fast enough

Now is the prime opportunity for learning teams to prioritize its usage

However although some L D professionals have experimented with generative AI tools few know what the game changing technology really is

In this issue of TD at Work Myra Roldan shares

A simplified explanation of how AI works

The difference between traditional AI and generative AI

Sample use cases for L D professionals to think about

A brief overview of how to get started using AI

Some notes on privacy and ethics

The Tools Resources in this issue are an Artificial Intelligence Tool Evaluation Worksheet and an Artificial Intelligence Project Planning Checklist

Supporting Personalized Learning and Students' Skill Development With AI Khaldi, Mohamed, 2025-03-05

The integration of artificial intelligence AI into education has the potential to fundamentally change pedagogical practices with a positive impact on all aspects of teaching and learning

It is possible to design personalized learning paths for each learner including those with special needs or who speak different languages by adjusting the content and pace according to their strengths and weaknesses

AI tools such as virtual assistants and interactive educational applications can give immediate feedback to learners which is of paramount importance to keep them engaged and encourage continuous learning

Similarly teachers can view AI based data analytics and recommendations to improve their teaching methods and adapt their strategies in real time

Supporting Personalized Learning and Students Skill Development With AI offers an in depth exploration of how to integrate AI technology into pedagogical practice to revolutionize education by exploring all aspects of AI in education from intelligent tutoring systems that tailor lessons to the needs of each learner to automating administrative tasks that save teachers time

While addressing the ethical and practical challenges of this transformation it highlights the urgent need to equip educators with the skills they need to benefit from AI

Covering topics such as autonomous learning emotion detection and digital literacy this book is an excellent resource for teachers school administrators educational decision makers computer developers professionals scholars academicians researchers and more
