Informatics Abstracts ,1988 Only Humans Need Apply Thomas H. Davenport,Julia Kirby,2016-05-24 An invigorating thought provoking and positive look at the rise of automation that explores how professionals across industries can find sustainable careers in the near future Nearly half of all working Americans could risk losing their jobs because of technology It s not only blue collar jobs at stake Millions of educated knowledge workers writers paralegals assistants medical technicians are threatened by accelerating advances in artificial intelligence The industrial revolution shifted workers from farms to factories In the first era of automation machines relieved humans of manually exhausting work Today Era Two of automation continues to wash across the entire services based economy that has replaced jobs in agriculture and manufacturing Era Three and the rise of AI is dawning Smart computers are demonstrating they are capable of making better decisions than humans Brilliant technologies can now decide learn predict and even comprehend much faster and more accurately than the human brain and their progress is accelerating Where will this leave lawyers nurses teachers and editors In Only Humans Need Apply Thomas Hayes Davenport and Julia Kirby reframe the conversation about automation arguing that the future of increased productivity and business success isn t either human or machine It s both The key is augmentation utilizing technology to help humans work better smarter and faster Instead of viewing these machines as competitive interlopers we can see them as partners and collaborators in creative problem solving as we move into the next era The choice is ours

Software Engineering of Large Scale Process Control Systems ,1988 Risk Management in Financial Institutions Dimitris N. Chorafas,1990 This is a book about the management of change a book about the death of the banking industry and the explosion of opportunities within a new financial services industry It argues that it is an impossible task to manage risk without the technological infrastructure and the technology tools It is a relatively straightforward exercise to determine functions or action of risk but it is most difficult to quantitatively measure and forecast risk without the tools Here the use of technology in data processing and production operation both in banks and other industries is examined **PC Magazine** ,1994-04 Microtimes ,1995 **Design News** ,2002 **Thomas Register of American Manufacturers** ,2003 Vols for 1970 71 includes manufacturers catalogs
