*AI for Absolute Beginners* Dr Aran Castro A J, 2025-07-19 Artificial Intelligence is already shaping your daily life whether you realise it or not From your smartphone to your emails streaming suggestions to smart assistants AI is no longer a futuristic dream It s real it s here and it s powerful But most people still don t understand it or feel it s too technical to grasp This book changes that *AI for Absolute Beginners* is a warm clear and practical guide for anyone curious about artificial intelligence With zero jargon and no coding it helps you understand how AI works where it shows up in your life and how to start using it confidently and ethically      Emerging Topics and Questions in Infocommunication Technologies Sergey Balandin, Vladimir Deart, Valtteri Niemi, 2020-06-16 This collection of essays consists of selected papers presented at the 24th IEEE FRUCT conference It highlights the most pressing research topics in infocommunication technologies such as challenges in the development of next generation networks the architectures and design of innovative knowledge based systems and innovations in healthcare and eHealth      *Future Humans in Fiction and Film* Louisa MacKay Demerjian, Karen F. Stein, 2019-01-10 This book will appeal to everyone who reads science fiction or thinks about science and its impact on our lives It raises profound economic ethical political sociological and psychological questions It explores our fears and fantasies as it examines a range of fictions films and TV programs that speculate about the possibilities of humans in the future The contributions here ask central questions that have provoked the creators and readers of science fiction since Mary Shelley inaugurated the genre with her novel *Frankenstein* What are the aims and limits of science and technology What are our responsibilities toward the products of our advancing science and technology What kinds of creatures will we produce or encounter in the future What rights will we grant to these creatures or more worryingly will they grant to us Do science and technology make us more civilized or more barbaric How should we treat each other Ultimately what does it mean to be human      **Hack Your Bureaucracy** Marina Nitze, Nick Sinai, 2022-09-13 In this deeply empowering and practical book Cecilia Muñoz two technology and innovation leaders reveal dozens of tactics that enabled them to accomplish seemingly impossible reforms in organizations of all types and sizes Whether you just started your first entry level job run the entire company or just feel trapped by your condo association bylaws it s time to it s time to learn how to get big things done and make a lasting impact with *Hack Your Bureaucracy* From local government to the White House Harvard to the world of venture capital Marina Nitze and Nick Sinai have taken on some of the world s most challenging bureaucracies and won Now they bring their years of experience to you teaching you strategies anyone can use to improve your organization through their own stories and those of fellow bureaucracy hackers including Find Your Paperclip use small steps to achieve big change Set Your North Star keep your end goal in sight Cultivate the Karass assemble an adept team and network Don t Waste a Crisis turn every opportunity into a chance for change And more Change doesn t happen just because the person in charge declares it should even if that person is the CEO of your company or the President of the United States Regardless of

your industry role or team Hack Your Bureaucracy shows how to get started take initiative on your own and transform your ideas into impact

**Radical Reporting** Sara I. James, 2025-01-31 If I were giving out an award for book of the year for internal audit professionals I would certainly award it to her outstanding manuscript Radical Reporting Writing Better Audit Risk Compliance and Information Security Reports Richard Chambers Former President and CEO The Institute of Internal Auditors Most people dread writing reports they also dread reading reports What they don't realize is that the techniques that make writing more readable make it more powerful This is especially relevant for professionals in areas such as audit risk compliance and information security This small volume provides the tools and techniques needed to improve reports It does so through addressing crucial concepts all too often overlooked in the familiar rush to perform tasks complete projects and meet deadlines These concepts the role of culture in communication the link between logic and language the importance of organizing thoughts before writing and how to achieve clarity may seem academic or theoretical They're not Unless writers understand their own thoughts actions and objectives they cannot hope to communicate them at all let alone clearly This second edition develops these points with additional material on critical thinking as well as the use of AI in reporting
