Crises in the History of the Papacy Joseph McCabe, 2015-07-04 Excerpt from Crises in the History of the Papacy A Study of Twenty Famous Popes Whose Careers and Whose Influence Were Important in the Development of the Church and in the History of the World Probably no religious institution in the world has had so remarkable a history and assuredly none has attracted so large and varied a literature as the Papacy The successive dynasties of the priests of ancient Egypt were by comparison parochial in their power and ephemeral in their duration The priests of Buddha rising to an autocracy in the isolation of Thibet or mingling with the crowd in the more genial atmosphere of China or cherishing severe mysticisms in Japan offer no analogy to the Papacy's consistent growth and homogeneous dominion The religious leaders of the Jews scattered through the world yet hardened in their type by centuries of persecution may surpass it in conservative antiquity but they do not remotely approach it in power and in historical importance It influences the history of Europe more conspicuously than emperors have ever done stretches a more than imperial power over lands beyond the most fevered dreams of Alexander or Caesar and may well seem to have made Eternal Rome something more than the idle boast of a patriot Yet this conservative endurance has not been favoured by such a stability of environment as has sheltered the lamas of Thibet or the secular priests of the old Chinese religion About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com

A Corrupt Tree is a unique, extensively researched four-volume exposé of the dark side of the Church of Rome. It reveals that for nearly two thousand years the Church's fundamental characteristic has been its self-serving abuse of religious corporate power. A large proportion of this first volume provides a detailed catalogue of the multitude of unholy popes. Included are those who were immature, capricious, corrupt, lascivious, fanatical, senile, truly mad, megalomaniac, tyrannical, murderous, and wholesale killers. It confirms that for many many centuries the popes were corrupt, cruel, inhumane, and despotic. In an age of savagery they were the leaders in barbarity; in the subsequent age of enlightenment they have persistently resisted the march of progress. Additionally, the popes were wholesale killers who made the principle of assassination a law of the Christian Church. Accordingly, the Church has shed more innocent blood than any other institution that has ever existed among mankind. Here also are presented the cupidity, corruption, and sexual

misconducts of lesser ecclesiastics including cardinals bishops priests monks and nuns Pope Honorius III for example described his priests as worse than beasts wallowing in their dung The Church s ruthless stranglehold on knowledge and learning is catalogued in detail Mathematics philosophy and science were repressed Selected applied theology ruled the world Everything was explained but nothing was understood The chapters on censorship reveal that even works of considerable literary or philosophical merit did not escape A large number of writings which eventually became classics of European culture were condemned and prohibited The Church also exhibited a vitriolic hatred of those who translated the Bible into the vernacular Many of these men were annihilated Holy books were burned in large numbers particularly the Jewish Talmud It is clearly demonstrated that the Church held back civilisation for over fifteen hundred years Century after century passed away and left the peasantry but little better than the cattle in the fields Finally the unholy behaviours of the numerous popes cardinals and lesser ecclesiastics are shown to establish unequivocally that the Church of Rome is neither holy nor apostolic The ultimate message of these volumes is that to become an exemplary institution and to play a truly humane role in the world s future the Catholic Church must change
