Scott Stine, 2025-02-17 Tracing the relationship between Christ centered biblical theology and the so called Great Tradition
this book seeks to remedy often self diagnosed weaknesses in evangelical gospel centered hermeneutics Meeting charges
first that redemptive historical approaches to Scripture tend to de theologize the Bible and second that theological
approaches tend to de historicize the Bible Scott Stine appropriates Calvin's famous spectacles metaphor to propose a
hermeneutical method that orients the Scripture reader both upward theologically and forward redemptive historically The
outcome is a unique approach called typological realism emphasizing that God reveals his good purposes along a typological
trajectory inviting believers to participate in the journey This book does not seek to offer anything new to Christian
interpretation of Scripture but to join together features from oft used approaches that not only fit together thematically but
also remedy reductive tendencies The goal is to help those listening to Scripture as God's shepherding voice to hear the
fullness of his revelation the purposeful process that culminates in the Beatific Vision **Lippincott's Magazine of**
