## **Critical Management Research In Eastern Europe Managing The Transition:**

Critical Management Research in Eastern Europe M. Kelemen, M. Kostera, 2002-10-23 The process of transition in Eastern European countries is one in which ideas of the past and present both local and Western meet and conflict Presenting a wealth of new ethnographic and interview based research Critical Management Research in Eastern Europe argues that the reform process in Central and Eastern Europe has been dominated by the traditional Western view of management practice However this approach overlooks the fact that certain managerial and organizational practices developed in Central and Eastern Europe may still be appropriate and indeed effective within this particular setting The book brings together authors from both East and West Europe to evaluate how the two systems can best be harmonized which is particularly important in the context of EU enlargement

**The Transformation of Property Regimes and Transitional Justice in Central Eastern Europe** Liviu Damsa, 2017-01-03 This volume examines the property transformations in post communist Central Eastern Europe CEE and focuses on the role of restitution and privatisation in such transformations It argues that the theorisation of restitution in post communist CEE is incomplete in the transitional justice scholarship and in the literature on correction of historical wrongs The book also argues that for a more complete theorisation of post communist restitution the transformations of property in post communist societies ought to be studied in a more holistic way The main legal vehicles used for such transformations privatisation and restitution should not be studied separately and in abstract but in their reciprocal relationship and in connection to the dimension of justice which each could achieve Finally the book integrates privatisation in a theory of post communist transformation of property

Central and East European Migrants' Contributions to Social Protection S. Maatsch, 2012-12-15 In 2001 Germany and Austria became the last EU states to lift transnational controls restricting access to their labour markets for citizens of ex communist countries This book challenges anti immigration discourses to show that given the high percentage of skilled immigrants it is the sending rather than the receiving countries who lose out

Financial Participation of Employees in the EU-27 J. Lowitzsch, 2009-09-23 This book aims to systematically assess laws and practices close gaps that currently prevent a full profiling of financial participation provide a description of individual countries against the background of comparable scores for the EU 27 and to promote a common platform for financial participation within the European Union

**Economics of Institutional Change** Tomasz Mickiewicz, 2010-08-11 This book a second edition has been significantly expanded and updated It revisits the process of institutional change its characteristics determinants and implications for economic performance

**The Technological Role of Inward Foreign Direct**

**Investment in Central East Europe** J. Stephan, 2013-09-27 Foreign direct investment FDI assumed a prominent role in Central East Europe CEE early on in the transition process Foreign investors were assigned the task of restructuring markets providing capital and knowledge for investment in technologically outdated and financially ailing firms **Serbia's Transition** Milica Uvalic, 2010-05-26 The book provides a comprehensive evaluation of the achievements and failures of the transition to a market economy in Serbia and explains why the process has been more complex than in other parts of the former communist world and in many ways unique Milica Uvalic analyses 20 years of economic transition in Serbia Starting from Serbia's favorable initial conditions in 1989 while still part of Yugoslavia it proceeds to discuss the difficult 1990s characterized by high political and economic instability international isolation due to wars and sanctions and lack of fundamental economic reforms The post 2001 achievements and failures of the radically new course in transition taken after the end of the Milosevic regime are evaluated in great detail including macroeconomic performance institutional reforms integration with the European Union and the impact of the 2008-09 global economic crises Publisher Transition and Beyond Saul Estrin, Grzegorz W. Kolodko, Milica Uvalic, 2007-08-10 More than fifteen years after the fall of the Berlin Wall many issues regarding the transition from a centrally planned economy to a market economy are still being debated This book presents an evaluation of the transition in Central Eastern Europe and focuses on the socialist legacy the transition from planned to market economy and the future of the post transition phase **Russia's Development Problem** Hans van Zon, 2008-10-31 This book argues that Russia has struggled under autocratic power and that this continues to affect economic development today A cult of power has underpinned legal nihilism distrust secrecy and aversion to transparency and accountability Informal institutions are more important than formal institutions and influence macroeconomic development Property and power are merged while property rights are weakly developed Russia does not only face market failure but also hierarchy and network failure A system of values and social practices with deep historic roots constitutes perhaps the most formidable obstacle to social and economic development By exploring the operating mechanisms of the Russian economy in a comparative perspective and with fascinating insights into how Russian path dependence continues to exert an influence on modern day Russia and limit its development this book is essential reading for all those interested in the Russian economy and modern Russian history **BOOK JACKET** *The Transformation of State Socialism* David Stuart Lane, David Lane, 2007-09-12 This book examines the impact of transformation on former state socialist countries and explores successes failures and alternative regimes *Industrial Competitiveness and Restructuring in Enlarged Europe* Iraj Hashi, Paul J.
