YouTube Jean Burgess, Joshua Green, 2018-08-28 Since launching as a website for everyday video sharing in 2005 YouTube has become one of the world s most powerful digital media platforms Originally published in 2009 when YouTube was only four years old this book was the first to systematically investigate its cultural impacts and politics highlighting the productive tensions between its amateur community rhetoric and its commercial media logics Since then YouTube has grown as a platform and matured as a company Its business model is built on coordinating the interests of and extracting value from its content creators audiences advertisers and media partners in a commercial setting where YouTube now competes with other powerful social media and streaming television platforms Meanwhile YouTube s

diverse communities of content creators who developed the platform's most distinctive cultural forms and genres have strong ideas and interests of their own. While preserving the original edition's forensic analysis of YouTube's early popular culture and uses this fully revised and updated edition weaves fresh examples, updated theoretical perspectives and comparative historical insights throughout each of its six chapters. Burgess and Green show how over its more than a decade of existence YouTube's dual logics of commerciality and community have persisted, generating new genres of popular culture, new professional identities and business models for the media industries and giving rise to ongoing platform governance challenges. The book is essential reading for anyone interested in the contemporary and future implications of digital media platforms and will be particularly valuable for students and scholars in media communication and cultural studies. **The**

Handbook of Magazine Studies Miglena Sternadori, Tim Holmes, 2020-04-21 A scholarly work examining the continuing evolution of the magazine part of the popular Handbooks in Media and Communication series. The Handbook of Magazine Studies is a wide-ranging study of the ways in which the political economy of magazines has dramatically shifted in recent years and continues to do so at a rapid pace. Essays from emerging and established scholars explore the cultural function of magazine media in light of significant changes in content delivery format and audience. This volume integrates academic examination with pragmatic discussion to explore contemporary organizational practices, content and cultural impact. Offering original research and fresh insights, thirty-six chapters provide a truly global perspective on the conceptual and historical foundations of magazines, their organizational cultures and narrative strategies and their influences on society, identities and lifestyle. The text addresses topics such as the role of advocacy in shaping and changing magazine identities, magazines and advertising in the digital age, gender and sexuality in magazines and global magazine markets. Useful to scholars and educators alike, this book discusses media theory, academic research and real-world organizational dynamics. Presents essays from both emerging and established scholars in disciplines such as art, geography and women's studies. Features in-depth case studies of magazines in international, national and regional contexts. Explores issues surrounding race, ethnicity, activism and resistance. Whether used as a reference, a supplementary text or as a catalyst to spark new research, The Handbook of Magazine Studies is a valuable resource for students, educators and scholars in fields of mass media, communication and journalism. **F & S Index United States Annual**, 2007 Digital Intermediation Jonathon

Hutchinson, 2023-05-31 Digital Intermediation offers a new framework for understanding content creation and distribution across automated media platforms, a new mediatization process. This book draws on empirical and theoretical research to carefully identify and describe a number of unseen digital infrastructures that contribute to a predictive media production process through technologies, institutions and automation. Field data is drawn from several international sites including Los Angeles, San Francisco, Portland, London, Amsterdam, Munich, Berlin, Hamburg, Sydney and Cartagena. By highlighting an increasingly automated content production and distribution process, this book responds to a number of regulatory debates on

the societal impact of social media platforms It highlights emerging areas of key importance that shape the production and distribution of social media content including micro platformisation and digital first personalities This book explains how technologies institutions and automation are used within agencies to increase exposure for the talent they manage while providing inside access to the processes and requirements of producers who create content for platform algorithms Finally it outlines user agency as a strategy for those who seek diversity in the information they access on automated social media content distribution platforms The findings in this book provide key recommendations for policymakers working within digital media platforms and will be invaluable reading for students and academics interested in automated media environments
