The Future of No Work Filip Drimalka, 2024-01-01 We have been told for ages that technology would make our lives easier. Instead, we increasingly find ourselves drowning in tedious tasks and feeling trapped in the daily grind overflowing calendars, endless to-do lists, and a never-ending stream of interruptions. And since we're always connected, our work never seems to end. Imagine a world where technology finally starts taking care of all the boring stuff so you can focus on what really matters to you. Where smart AI apps empower you to create anything you can imagine and even things you never would have thought of. Where you have the power to redesign work around your life, not the other way around. This is the era of No Work. It's not about escaping work but about using our skills and leveraging the possibilities unlocked by AI so that our days are primarily comprised of the things we are passionate about. Because that's how we can create something extraordinary. Inside this book, you'll find hundreds of practical examples and tips: How to find, select, and use the right digital tools for anything you do. How to make your productivity skyrocket with AI and reclaim your time. How to do things your way with greater freedom by automating more tasks. How to craft the work you want, whether you're an entrepreneur or an employee. How to seize new opportunities and build a future-proof career. The book will provide you with loads of tips on the best apps and tools that are part of the AI revolution, but the real magic is how it changes the way you think. You'll learn new skills and timeless principles that will keep you ahead of the game, no matter how AI changes the way we work. **FILIP DRIMALKA** pronounced like Phil Dream is a digital innovation expert and a sought-after European consultant on technology adoption. He is the founder of Digiskills, Digitask, and Digi Challenge projects that are helping hundreds of companies and tens of thousands of individuals upskill and thrive in the digital age. Filip resides in the Central European hot spot Brno with his wife and two children. When he's not driving digital transformation, you can find him skiing, surfing, or mountain biking. He doesn't just write about No Work; he actually lives it.

Getting Started in Data Science Ayodele Odubela, 2020-12-01 Data Science is one of the sexiest jobs of the 21st Century, but few resources are geared towards learners with no prior experience. *Getting Started in Data Science* simplifies the core of the concepts of Data Science and Machine Learning. This book includes perspectives of a Data Scientist from someone with a non-traditional route to a Data Science career. *Getting Started in Data Science* creatively weaves in ethical questions and asks readers to question the harm models can cause as they learn new concepts. Unlike many other books for beginners, this book covers bias and accountability in detail, as well as career insight that informs readers of what expectations are in industry. **Data Science**

The Artificial Intelligence Playbook Meghan Hargrave, Douglas Fisher, Nancy Frey, 2024-03-05 Time-Saving AI Tools that Make Learning More Engaging. Busy educators need tools that support their planning and provide them with more time with students. While Artificial Intelligence (AI) has emerged as a promising solution, it can only help if we're willing to learn how to use it in ways that improve upon what we already do well. *The Artificial Intelligence Playbook: Time-Saving Tools that Make Learning More Engaging* is here to

empower teachers to explore AI's potential and discover practical ways to implement it to enhance their planning and instruction. Two chapters and 6 Educator Functions guide teachers step by step through how to purposely use AI to Compose Writing Prompts and Avoid Plagiarism, Manage Content, Foster Student Engagement, Meet Students' Instructional Needs, Assess Student Learning, and Continue Lifelong Learning. Though AI has the potential to reduce workload for educators, it will never replace teachers. Your connection with students is irreplaceable and greatly impacts their learning. Consider AI a valuable tool that provides you with more time to build and sustain those vital relationships with students and that can assist them in learning at the very same time.

The Power of Crisis Ian Bremmer, 2022-05-17 New York Times Bestseller

Renowned political scientist Ian Bremmer draws lessons from global challenges of the past 100 years, including the pandemic, to show how we can respond to three great crises unfolding over the next decade. In this revelatory, unnerving, and ultimately hopeful book, Bremmer details how domestic and international conflicts leave us unprepared for a trio of looming crises: global health emergencies, transformative climate change, and the AI revolution. Today, Americans cannot reach consensus on any significant political issue, and US and Chinese leaders behave as if they're locked in a new Cold War. We are squandering opportunities to meet the challenges that will soon confront us all. In coming years, humanity will face viruses deadlier and more infectious than Covid. Intensifying climate change will put tens of millions of refugees in flight and require us to reimagine how we live our daily lives. Most dangerous of all, new technologies will reshape the geopolitical order, disrupting our livelihoods and destabilizing our societies faster than we can grasp and address their implications. The good news: Some farsighted political leaders, business decision makers, and individual citizens are already collaborating to tackle all these crises. The question that should keep us awake is whether they will work well and quickly enough to limit the fallout, and most importantly, whether we can use these crises to innovate our way toward a better world. Drawing on strategies both time honored and cutting edge, from the Marshall Plan to the Green New Deal, *The Power of Crisis* provides a roadmap for surviving, even thriving, in the 21st century. Bremmer shows governments, corporations, and every concerned citizen how we can use these coming crises to create the worldwide prosperity and opportunity that 20th century globalism promised but failed to deliver.
