The Finance Book for Young Adults Kris

Land, 2023-03-06

THE FINANCE BOOK FOR YOUNG ADULTS: HOW THE RICH GENERATE TAX-FREE INCOME, BUDGET THEIR MONEY, AND TAKE ADVANTAGE OF IUL INSURANCE

You do not need to be at the mercy of a spiky and incoherent financial market. You can take your financial freedom and power back. From 2008 to 2009, the American people lost over 7.4 trillion in stock wealth. That's disastrously bad. Master of the Universe Warren Buffett of Berkshire Hathaway lost 23 billion in personal wealth, and he's called the Oracle of Omaha for his prophecy in stock picks. If someone like Buffett can whiff on the stock market, what hope do the rest of us have? How can we balance our financial lives and leave them less vulnerable to the volatile ups and downs of the stock market, pandemics, and the unforeseen swings and tosses of life? It takes many years to build a sound financial base to secure the basic needs and comfort of your family and yourself. When you reach a point where you are ready to start growing that nest egg to cover things like education, retirement, and your family's future well-being, you need to have more to go on than just the hope that the stock market stays stable. We all know it won't anyway. So what can you do to offset the risk and maximize the gain so that your hard-earned cash doesn't end up in someone else's pockets? In this insightful and practical book, you will discover how to rebalance your financial portfolio to spread risk and diversify wisely while still growing your capital at a good rate. The top investments to consider that are not stock market-related. How to tap into the savviest investment avenues in some of the most unexpected ways. What to do to enjoy the benefits of a stampeding bull market without getting snagged by a grizzly bear market. How to double up on standard insurance options and turn them into a wealth-bearing asset. The difference between using traditional banking systems vs. becoming your own personal bank and how that can work for you. Investment vehicles that never lose money and can only grow. How to take control of your savings, generate capital, earn good interest, and increase your cash flow using the personal bank concept as your overarching financial strategy. The untapped wealth and investment potential in the indexed universal life insurance (IUL) market. The Rule of 72 and how to quickly calculate the rate of return and compare one investment with another. The secrets of what works for many of the world's top investors and how they keep their assets growing following Buffett's simple investing strategy. And much more. You don't have the mental space or the resources to be misled by crafty schemes that waste your time and money and end only in regrets. Get rich quick plans come at a price that you do not need to pay if you follow the simple and sound financial advice built over many decades and shared in this realistic and useful guide. Protect your assets and grow your wealth. Scroll up and click the Add to Cart button right now.
