AI Will Take Your Job, and It's for the Best Jeff Schatten, Teresa Aires, 2025-04-17 *AI Will Take Your Job and It's for the Best* examines how AI will free people from mundane tasks allowing them to pursue more meaningful and creative roles. It's more than a forecast; it's a guide to thriving in the age of AI and embracing the radical new social contract it requires.

Only Humans Need Apply Thomas H. Davenport, Julia Kirby, 2016-05-24 An invigorating thought provoking and positive look at the rise of automation that explores how professionals across industries can find sustainable careers in the near future. Nearly half of all working Americans could risk losing their jobs because of technology. It's not only blue collar jobs at stake. Millions of educated knowledge workers, writers, paralegals, assistants, medical technicians are threatened by accelerating advances in artificial intelligence. The industrial revolution shifted workers from farms to factories. In the first era of automation, machines relieved humans of manually exhausting work. Today, Era Two of automation continues to wash across the entire services-based economy that has replaced jobs in agriculture and manufacturing. Era Three and the rise of AI is dawning. Smart computers are demonstrating they are capable of making better decisions than humans. Brilliant technologies can now decide, learn, predict, and even comprehend much faster and more accurately than the human brain, and their progress is accelerating. Where will this leave lawyers, nurses, teachers, and editors? In *Only Humans Need Apply*, Thomas Hayes Davenport and Julia Kirby reframe the conversation about automation, arguing that the future of increased productivity and business success isn't either human or machine. It's both. The key is augmentation: utilizing technology to help humans work better, smarter, and faster. Instead of viewing these machines as competitive interlopers, we can see them as partners and collaborators in creative problem solving as we move into the next era. The choice is ours.

Racist Love Leslie Bow, 2021-12-13 In *Racist Love*, Leslie Bow traces the ways in which Asian Americans become objects of anxiety and desire. Conceptualizing these feelings as racist love, she explores how race is abstracted and then projected onto Asianized objects. Bow shows how anthropomorphic objects and images such as cartoon animals in children's books, home decor, and cute tchotchkes, contemporary visual art, and artificially intelligent robots function as repositories of seemingly positive feelings and attachment to Asianness. At the same time, Bow demonstrates that these Asianized proxies reveal how fetishistic attraction and pleasure serve as a source of anti-Asian bias and violence. By outlining how attraction to popular representations of Asianness cloaks racial resentment and fears of globalization, Bow provides a new means of understanding the ambivalence surrounding Asians in the United States while offering a theory of the psychological, affective, and symbolic dynamics of racist love in contemporary America.

Express Series English for the Fashion Industry Mary E. Ward, 2015-10-08 Please note that the Print Replica PDF digital version does not contain the audio. *English for the Fashion Industry* gives students the communication skills they need for a career in fashion. The syllabus introduces each element of the industry from garment design and construction through to the production and promotion of collections. Students learn
