Innovative Teaching Strategies in Nursing and Related Health Professions Martha J. Bradshaw, Beth L. Hultquist, Debra Hagler, 2019-09-27 Teaching Strategies in Nursing and Related Health Professions Eighth Edition details the trends in teaching strategies and educational technology that promote effective learning for today's students. The Eighth Edition has been updated to provide the most current information and strategies for online learning and incorporating technology across settings. Chapters on blended learning and study abroad programs help students to gain a more diverse and increased global perspective. Highlighting innovative teaching techniques and real world illustrations of the educational strategies, this text goes beyond theory to offer practical application principles that educators can count on. [Making Evaluation Meaningful](#) PJ Caposey, 2017-06-24 Re-evaluate your perspective on teacher evaluation to truly transform school performance. The tools, strategies, and reflections in this book provide realistic solutions to the problem faced by many schools: meaningless evaluation. A considerable amount of time, energy, and money is spent on the teacher evaluation process, yet the question remains: whether it is truly transforming the learning of teachers and therefore students. This practical guide shows how evaluation can become the tie that binds all school improvement activities together to bring clarity and purpose to all educators, making their roles more effective. Improve teacher practice since they receive better support. Increase student achievement and overall school culture. For years, building leaders have been agonizing over teacher evaluations, pouring countless hours into a practice that consistently fails to produce the desired result: more meaningful conversations that produce improved quality instructional practices and increases in student achievement. In his book [Making Evaluation Meaningful](#), PJ Caposey shares a step-by-step framework filled with quick, easy-to-follow tips for tomorrow, as well as detailed examples to help you shift your mindset and behave yourself to a more effective instructional leader. This book will leave you questioning your own evaluation system while, at the same time, inspiring you to re-commit the time and resources needed to help grow and develop your teachers. Jimmy Casas, Principal and CEO. PJ Caposey, through a practitioner lens, has developed an incredible guide that not only helps to demystify the evaluation process but also provides ready-to-use strategies to ensure reflection and growth are the result. In the end, evaluation must be meaningful for both parties. This book will help get you there. Eric Sheninger, Author, Consultant, Senior Fellow, Thought Leader. PJ Caposey has developed a great resource on teacher evaluation that actually provides realistic, encouraging, and supportive guidance instead of an arbitrary checklist. Larry Ferlazzo, Teacher, Author, and Education Week Teacher advice blogger. Luther Burbank High School, Sacramento, CA.
