**Discourse and Discrimination** Martin Reisigl, Ruth Wodak, 2001 Discourse and Discrimination is a study of how racism antisemitism and ethnicism are reflected in discourse The authors first survey five established discourse analysis approaches before providing their own model and three case studies Drawing on a wide range of sources they question why racism and anti-Semitism are still virulent worldwide *Discourse and Discrimination* Geneva Smitherman, Teun A. van Dijk, 1988

**Performance Culture and Students' Motivation** Joseph Zajda, 2025-05-31 This book analyses education policy trends that affects performing culture academic excellence and global competitiveness in schools It focuses on students cultural identities and engagement inclusive schooling eliminating discrimination and discriminatory practices in the classroom and relevant values education One of the major effects of cultural and economic forces of globalisation is that schools and school leaders like other educational organisations having modelled their goals and strategies on the entrepreneurial business model They are compelled to embrace the corporate ethos of efficiency accountability performance and profit driven managerialism This corporate ethos reflects a dominant neo liberal ideology which exerts a powerful influence on major discourses of democracy equality social justice and education both locally and globally By examining the education policy shifts in the use of major discourses concerning performing culture and education this book offers a comprehensive synthesis of the intersecting and diverse discourses of globalisation cultural diversity performing culture and education It provides innovative ideas concerning the future directions for authentic models of globalisation performance culture and students motivation Power Politics Karen Brodtkin, 2009-08-05

In the late 1990s when California's deregulation of the production and sale of electric power created massive energy shortages a group of environmental justice activists blocked construction of a power plant in their working class Mexican and Central American neighborhoods Why did they choose this battle And how did the largely high school student activists come to prevail in the face of statewide political opinion Power Politics is a rich and readable study of a grassroots campaign where longtime labor and environmental allies found themselves on opposite sides of a conflict that pitted good jobs against good air Karen Brodtkin analyzes how those issues came to be opposed and in doing so unpacks the racial and class dynamics that shape Americans grasp of labor and environmental issues Power Politics activists stood at the forefront of a movement that is building broad based environmental coalitions and placing social justice at the heart of a new and robust vision Social Problems in Everyday Life Gale Miller, James A. Holstein, 1997

**Malevolent Legalities** Kevin S. Jobe, 2024-10-29 Malevolent Legalities draws upon archival research conducted at the Scalia Papers at the Harvard Law School Historical and Special Collections to examine the influence of

Justice Antonin Scalia's judicial philosophy of textualist originalism on the US Supreme Court's antidiscrimination jurisprudence. The book focuses on six US Supreme Court cases organized into two parts. The main argument of the book, grounded in archival and legal materials, is that textualist originalism makes it lawful for discrimination to be performed through the text and explicitly seeks to prevent progress by enacting a regime of static law. In *Shelby County v Holder* (2013), Justice Ginsburg remarked that discrimination today behaves like the Hydra, the many-headed serpent in Ancient Greek mythology which regenerates each time its head is severed. The analysis of archival and legal materials is therefore prefaced by the development of a unique methodology for studying discrimination called *discriminatology*, understood as a framework for analyzing how discrimination persists through time, is performed through the text, and is a product of the manipulation of legal speech. In this way, *Malevolent Legalities* approaches the study of textualist originalism as itself a vehicle for discrimination performed *mala fide* or in bad faith.

**Identity, Belonging and Migration** Gerard Delanty, Ruth Wodak, Paul Jones, 2008-02-01. This volume addresses the question of migration in Europe. It is concerned with the extent to which racism and anti-immigration discourse has been to some extent normalised and democratised in European and national political discourses. Mainstream political parties are espousing increasingly coercive policies and frequently attempting to legitimate such approaches via nationalist populist slogans and coded forms of racism. *Identity, Belonging and Migration* shows that liberalism is not enough to oppose the disparate and diffuse xenophobia and racism faced by many migrants today and calls for new conceptions of anti-racism within and beyond the state. The book is divided into three parts and organised around a theoretical framework for understanding migration, belonging, and exclusion, which is subsequently developed through discussions of state and structural discrimination as well as a series of thematic case studies. In drawing on a range of rich and original data, this timely volume makes an important contribution to discussions on migration in Europe.

**Old Words and Modern Meanings** Thomas Whitcombe Greene, 1876. [Elite Discourse and Racism](#) Teun A. Van Dijk, 1993-03-02. This study of elite racism, which can be subtle but is in fact pervasive and sometimes mundane, is an important contribution to the study of racism and a fine example of comparative race and ethnic studies. Intended for undergraduate and graduate students and scholars, it can also be profitably read by anyone interested in understanding the multiple manifestations of racism in US and European societies.
