**Discourse and Social Life** Srikant Sarangi, Malcolm Coulthard, 2014-06-11 This collection brings together for the first time in a single volume many of the major figures in contemporary discourse studies Each chapter is an original contribution which has been specifically commissioned for this book and together they document the wide range of concerns and techniques which characterise the discipline at the turn of the century Discourse and Social Life is concerned with a variety of different types of data talk text and interaction and covers research sites which range from the home setting through the health care setting and the courtroom to the public sphere The book not only provides a critical historical overview of different traditions of discourse analysis but also projects to some extent the possible developments of this field of study as other allied disciplines Philosophy Psychology Sociology Rhetoric and Communication Studies are taking a discursive turn Readers are invited to draw parallels between these different approaches to studying discourse in its social context The contributors are Sally Candlin Malcolm Coulthard Justine Coupland Nikolas Coupland Norman Fairclough Ruqaiya Hasan Robert Kaplan Geoff Leech Yon Maley Greg Myers Celia Roberts Srikant Sarangi Ron Scollon Theo van Leeuwen Henry Widdowson and Ruth Wodak

**Misunderstanding in Social Life** Juliane House, Gabriele Kasper, Steven Ross, 2014-09-25 Misunderstanding is a pervasive phenomenon in social life sometimes with serious consequences for people's life chances Misunderstandings are especially hazardous in high stakes events such as job interviews or in the legal system In unequal power encounters unsuccessful communication is regularly attributed to the less powerful participant especially when those participants are members of an ethnic minority group But even when communicative events are not prestructured by participants differential positions in social hierarchies misunderstandings occur at different levels of interactional and social engagement Misunderstanding in Social Life examines such problematic talk in ordinary conversation and different institutional settings including socializing events and story tellings education and assessment activities and interviews in TV news broadcasts employment agencies legal settings and language testing The analyzed interactions are located in a variety of sociocultural environments and conducted in a range of languages including English French German Hebrew Japanese such language varieties as Aboriginal Australian English and Maori New Zealand English and nonnative varieties The original studies included in this volume adopt a variety of theoretical perspectives including discourse pragmatic approaches conversation analysis interactional sociolinguistics social constructionism tropological and narrative analysis They represent multiple views of misunderstanding as a multilayered discourse event

**The Social Life of the Japanese Language** Shigeko Okamoto, Janet S. Shibamoto-Smith, 2016-08-04 Why are different varieties of the Japanese language used differently in social interaction and how are they perceived How do honorifics operate to express diverse affective stances such as politeness Why have issues of gendered speech been so central in public discourse and how are they reflected and refracted in language use as social practice This book examines Japanese sociolinguistic phenomena from a fascinating new perspective focusing

on the historical construction of language norms and its relationship to actual language use in contemporary Japan This socio historically sensitive account stresses the different choices which have shaped Japanese and Western sociolinguistics and how varieties of Japanese honorifics and politeness and gendered language have emerged in response to the socio political landscape in which a modernizing Japan found itself

**Language as Ideology** Robert Hodge, Gunther Kress, 2025-12-08 Critical Linguistics inaugurated in 1979 with the publication of *Language as Ideology* has been widely influential and successful in documenting the connection of linguistic and social practices Published as a second edition in 1993 the reissue of this classic text still provides a most detailed theoretical account of the operation of power and ideology in all aspects of text The book presents the advances made in the field of critical language study The authors views on the necessary directions for the field are advanced through a detailed analysis and theoretical discussion of a related set of texts The book will be of interest to students and teachers of a wide range of disciplines including English language and linguistics media cultural and communication studies and education

*Misunderstanding in Social Life* Juliane House, Steven Ross, Gabriele Kasper, 2002

**Mediated Discourse as Social Interaction** Ron Scollon, 2014-06-11 Mediated Discourse as Social Interaction makes an explicit link between media studies and social interactionist discursive research where previously the two fields of study have been treated as separate disciplines This text presents an integrated theory illustrated by ample concrete examples bringing together the latest research in these two fields It offers a critique to the sender receiver model implicit in media studies and argues for an analysis of media discourse as social interaction on the one hand among journalists and newsmakers as a community of practice and among readers and viewers as a spectating community of practice on the other The book also argues for a coherent and interdiscursive methodology for the ethnographic study of the role of the news media in the social construction of identity and is based on a considerable body of ethnographic and textual analysis of both print and television news media The theory of mediated discourse presented in this volume will be of great interest to advanced undergraduates and postgraduates studying media studies sociology of language discourse analysis interactional sociolinguistics ethnography of communication and applied linguistics It will also be welcomed by scholars and professionals involved in research in these areas

The Drama of Social Life Jeffrey C. Alexander, 2017-06-05 In this book Jeffrey Alexander develops the view that cultural sociology and cultural pragmatics are vital for understanding the structural turbulence and political possibilities of contemporary social life Central to Alexander's approach is a new model of social performance that combines elements from both the theatrical avant garde and modern social theory He uses this model to shed new light on a wide range of social actors movements and events demonstrating through striking empirical examples the drama of social life Producing successful dramas determines the outcome of social movements and provides the keys to political power Modernity has neither eliminated aura nor suppressed authenticity on the contrary they are available to social actors who can perform them in compelling ways This volume further consolidates Alexander's reputation as one of the most

original social thinkers of our time It will be of great interest to students and scholars in sociology and cultural studies as well as throughout the social sciences and humanities

**Crafting Society** Donald G. Ellis, 1999-07 Addresses the connections between communication patterns more general social conditions with analysis of types of communication their meanings associations with ethnicity class For scholars in comm theory discourse social issues

Metaphysical Community Greg Urban, 1996 Winner Senior Book Prize American Ethnological Society Starting with the post structuralist idea that truth systems are lodged in discourse and that discourse varies from society to society Greg Urban seeks to discover the nature and extent of that variation His journey to an Amerindian society in which dreams are more prominent than everyday aspects of the sensible world leads him to radically reformulate one of the main problematics of Western thought the relationship between our sensations of the world and the understandings we form of them Metaphysical Community proposes that this dichotomy comes from the interplay between two sides of discourse its intelligible side as a carrier of meanings and its sensible side as thing in the world that must be replicated This insight leads to the heart of the book the exploration of the uneasy tension that binds experience and understanding phenomena and noumena Urban challenges basic assumptions that underlie social and cultural anthropology and much of the social sciences and humanities His provocative insights will be of interest to all those concerned with anthropology cultural studies literary criticism the sociology and politics of culture and philosophy

The Palgrave Handbook of Anthropological Ritual Studies Pamela J. Stewart, Andrew J. Strathern, 2021-08-24 Ritual Studies have achieved prominence since the 1980s when interest in ritual as an object of inquiry was established bridging over a number of humanities and social science disciplines Both connected with religious studies and independent of it overlapping with social and cultural anthropology but also with history related to science and health practices and ranging across the life course to education Ritual Studies has come to encompass studies of change and dynamism in social life Rituals are determinate in form but not static They enunciate distinctive social values within specific contexts that frame them and they relate to the wider concerns and issues of their practitioners Due to this broad and wide ranging scope it is often difficult to find a single resource on Ritual Studies and even more so to find one which moves beyond the beginnings of anthropological theorizing to grapple with the present day contexts of ritual Bringing together recent ethnographies of ritual practice and ritualization from across the globe this Handbook provides case study of ritual in the light of Emotion and Cognition Identity Religious Power Performance and Literature Ecology and Ecological Disaster Media and other topics While each chapter provides a deep ethnography of a specific society ritual or ritualized practice each also engages with current theoretical and substantive approaches to the relevant topic The scholars collected here provide original synoptic and indicative pieces as guideposts and pathways through the complex varied and cross disciplinary and vast landscape of scholarship that constitutes Ritual Studies today and points to developments in the future

*From Text to Political Positions* Bertie Kaal, Isa Maks, Annemarie van Elfrinkhof, 2014-05-15 From Text to Political Positions addresses cross disciplinary

innovation in political text analysis for party positioning Drawing on political science computational methods and discourse analysis it presents a diverse collection of analytical models including pure quantitative and qualitative approaches By bringing together the prevailing text analysis methods from each discipline the volume aims to alert researchers to new and exciting possibilities of text analyses across their own disciplinary boundary The volume builds on the fact that each of the disciplines has a common interest in extracting information from political texts The focus on political texts thus facilitates interdisciplinary cross overs The volume also includes chapters combining methods as examples of cross disciplinary endeavours These chapters present an open discussion of the constraints and disadvantages of either quantitative or qualitative methods when evaluating the possibilities of combining analytic tools

**Censoring Sex Research** Thomas K Hubbard, Beert Verstraete, 2016-06-16 This volume sheds light on one of the most explosive episodes of censure of academic scholarship in recent decades Bruce Rind a former psychology professor at Temple University investigated sexual relations between male adults and adolescents through history and across cultures from highly institutionalized relationships in Ancient Greece and Rome to 33 contemporary cultures including the USA and among various species His conclusions that these relations when consensual are not always negative was radical but based in his research findings Even before publication of an invited article on the topic he was subjected to intensive attacks censured and censored This book presents a substantially extended version of Rind's original unpublished article plus 12 scholarly responses to his work that argue for or against Rind's conclusions or offer useful context on his work For anyone interested in sex research and the academic freedom issues surrounding it whether supportive of or vehemently opposed to Rind's ideas this book is a must read

Language Acquisition and Language Socialization Claire Kramsch, 2002 This is an outstanding collection of papers by top scholars in a range of disciplines who shed stimulating complementary insights into the social cognitive and semiotic frameworks that shape both the acquisition of language and the constitution of social actors through that process The intentionally loose ecological framing of the volume provides an arena within which a range of perspectives all united by their opposition to a mechanistic view of language acquisition can enter into dialogue with each other This is a most stimulating collection with a range of insightful investigations of settings as diverse as an autistic child learning to interact with others on the playing field professional gate keeping encounters and foreign language classrooms Professor Charles Goodwin University of California at Los Angeles The book brings together well known scholars in two relatively distinct fields language acquisition and language socialization and from a variety of orientations within applied linguistics to describe language development from a relational perspective The papers in this volume are a response to three main questions 1 What conceptual models best capture the ecological nature of language learning 2 What research approaches are best likely to illuminate the relationship between language and social structure 3 How is educational success defined for language acquisition and language socialization
