Discourse Counter Discourse The Theory:

Discourse/Counter-Discourse Richard Terdiman, 2018-05-31 Discourse Counter Discourse is situated on the border between cultural history and literary criticism combining the insights of Marxism and semiotics it attempts to delineate the cultural function of texts Focusing on France during a period of remarkable cultural social and political transformation Richard Terdiman examines both the dominant bourgeois discourse novels newspapers and other mass forms of expression and the effort of intellectuals to devise counter discourses to combat it **Discourse Theory and Critical Media Politics** L. Dahlberg, S. Phelan, 2011-10-12 A systematic examination of the relationship between post Marxist discourse theory and media studies This volume interrogates discourse theory as read via the work of Ernesto Laclau and Chantal Mouffe through an engagement with major approaches to critical media politics and a range of issues in contemporary media politics

Occidentalism Xiaomei Chen, 2002 This revised and expanded edition of the first comprehensive study of Occidentalism in post Mao China includes a new preface foreword and chapter on Chinese diaspora writings in the Chinese language Xiaomei Chen offers an insightful account of the unremittingly favorable depiction of Western culture and its negative characterization of Chinese culture in post Mao China since 1978 She examines the cultural and political interrelationship between the East and West from a vantage point more complex than that accommodated by most current theories of Western imperialism and colonialism Going beyond Edward Said's construction in *Orientalism* of cross cultural appropriations as a defining facet of Western imperialism Chen argues that the appropriation of Western discourse what she calls Occidentalism can actually have a politically and ideologically liberating effect on contemporary non Western culture She maintains that simplistic allegations of Orientalism frequently found in current critical discourses seriously underestimate the complexities of intercultural and multicultural relationships Using China as the focus of her analysis Chen examines a variety of cultural media from Shakespearean drama to modernist poetry to contemporary Chinese television and popular fiction She thus places sinology in the general context of Western theoretical discourses such as Eurocentrism postcolonialism nationalism modernism feminism and literary hermeneutics showing that it has a vital role to play in the study of Orient and Occident and their now unavoidable symbiotic relationship Occidentalism presents a new model of comparative literary and cultural studies that reenvisions cross cultural appropriation It will be indispensable to future discussions of Orientalism Occidentalism and postcolonialism as well as subaltern studies Asian studies comparative literature cultural studies and non Western drama Timothy Findley and the Aesthetics of Fascism Anne Elizabeth Bailey, 1998 Investigates the troubling relationship between narrative meaning and representations of violence within Timothy Findley's novels *Journal of Dramatic Theory and Criticism*, 1989 Ken Saro-Wiwa and the Discourse of Ethnic Minorities in Nigeria Imo Ubokudom Eshiet, Onookome Okome, Felix Akpan, 1999* **Discontinuous Discourses** José Van Dijck, 1992 Postcolonial Theory B. J. Moore-Gilbert, 1997 Much controversy has recently come to surround the status and value of postcolonial modes of cultural

analysis Postcolonial theory has been challenged on several fronts on its interdisciplinary competence on the politics of its institutional location and its implicit will to have power over other kinds of postcolonial analysis many of which have been established for much longer than postcolonial theory itself The ensuing debate has often become so heated even personalized that the issues at stake have been obscured In what is the most comprehensive and accessible survey of the field to date Bart Moore Gilbert systematically examines the objections that have been raised against postcolonial theory revealing the simplifications and exaggerations on both sides of the argument He provides a detailed institutional history of the ways in which the relationship between culture and colonialism was traditionally studied in the West then traces the emergence of alternative forms of postcolonial analysis of such questions He gives an extremely careful presentation of the complex and elusive work of the three principal representatives of postcolonial theory Gayatri Spivak Edward Said and Homi Bhabha and considers the criticisms they have faced from an alleged Eurocentrism to an obfuscatory prose style And he assesses the overlaps and differences between postcolonial theory and other forms of postcolonial criticism Finally he considers the ways in which postcolonial analysis may be connected with different histories of oppression and looks at how such a heterogeneous theory can be reconciled with political questions of solidarity and alliance in the continuing struggle for cultural decolonization
