## **Discover Historic Washington State:**

**Discover Historic Washington State** George Roberts, Jan Roberts, 1999     Discovering Washington Keith Petersen, Mary E. Reed, 1989 *Discovering Washington* offers an in depth survey of how to research and write about the Pacific Northwest's past whether you want to prepare a modest family history or a detailed community or regional study

**Discover the Stories of Our Past** Washington State Historical Society, 2005\*     **Discovering Historic Iowa** LeRoy G. Pratt, 1972     *Discovering Nothing* David L. Nicandri, 2024-06-01 The many attempts by navigators to find a Northwest Passage via its Pacific portal all ended in failure however their discoveries spurred expansionist developments that would forever alter the landscape of North America In *Discovering Nothing* David L. Nicandri maps a cast of geographic visionaries and practical explorers as they promoted or sought a workable commercial route linking the Pacific Ocean to the Atlantic The discovery of the legendary northern passage proved elusive but the equivalent land bridges that were built in the form of two transcontinental railroads changed the futures of Canada and the United States Drawing from close readings of explorers' personal journals Nicandri provides readers a detailed engaging and multifaceted investigation into the many players and failed enterprises at the core of this search beginning in the eighteenth century through to today and to the unexpected impact of climate change on this fabled passage     Discovering History in China Paul A. Cohen, 2010-04-29 Since its first publication Paul A. Cohen's *Discovering History in China* has occupied a singular place in American China scholarship Translated into three East Asian languages the volume has become essential to the study of China from the early nineteenth century to today Cohen critiques the work of leading postwar scholars and is especially adamant about not reading China through the lens of Western history To this end he uncovers the strong ethnocentric bias pervading the three major conceptual frameworks of American scholarship of the 1950s and 1960s the impact response modernization and imperialism approaches In place of these Cohen favors a China centered approach in which historians understand Chinese history on its own terms paying close attention to Chinese historical trajectories and Chinese perceptions of their problems rather than a set of expectations derived from Western history In an important new introduction Cohen reflects on his fifty year career as a historian of China and discusses major recent trends in the field Although some of these developments challenge a narrowly conceived China centered approach insofar as they enable more balanced comparisons between China and the West and recast the Chinese and their history in more human less exotic terms they powerfully affirm the central thrust of Cohen's work     Our 50 States Lynne Cheney, 2016-09-06 Lynne Cheney and Robin Preiss Glasser creators of the bestselling *America A Patriotic Primer* and *A is for Abigail An Almanac of Amazing American Women* take you on an unforgettable tour of America from the Everglades of Florida to the grasslands of Kentucky to the Sierra Mountains of California Come along on a summer vacation from state to amazing state and learn about interesting regional and historic facts along the way with an energetic family and even the family dog     *Discovering Historic America: Mid-Atlantic states*, 1982     Discovering
