## Discovering Girard:

Discovering Girard Michael Kirwan, 2005-08-25 Really wonderful and elegantly written initiation into the mimetic theory I am lucky to have interpreters who understand what I want to say and who can write so well Ren Girard The work of Ren Girard is hugely influential in literature and cultural studies But it is in understanding the relationship between religion and violence that his theory has created its greatest impact Girard's understanding of mimetic rivalry and conflict and of scapegoating is seen by many to be the key to a completely new understanding of Christianity Girard's name evokes curiosity and often strong feelings among devotees and skeptics Discovering Girard is the first book to present Girard's work to a wider audience It explains and appraises Girard's mimetic theory shows its impact on theology and other disciplines and manages to convey the excitement that a discovery of Girard's ideas often generates in readers **Discovering Girard**

John P. Edwards, 2020-05-14 Opening with a Foreword by James Alison this volume is the first in depth treatment of Alison's theological method John P Edwards shows that Alison's theological project outstrips Ren Girard's application of mimetic theory to theology He concludes that an explicitly Christian theological perspective is necessary for providing a fully coherent account of Girard's notions of conversion and mimetic desire This volume grounds Alison's theological method in his understanding of the ongoing interaction between conversion and theological reflection which is informed by his use of mimetic theory While Alison describes this method as theology in the order of the discovery the author refers to it as an inductive theology The volume closes by demonstrating that such a theology bears fruit in a renewed understanding of the value of Christian doctrines and particularly the doctrine of revelation **A New Awareness** Dominic Arcamone, 2024-02-29

**A New Awareness** is an endeavor of affection and generosity toward Sebastian Moore The book examines his key theological insights and themes over seventy years and proposes that they are still relevant today for the Christian Community He was a theologian and poet He wrote about many theological topics the significance of Jesus the experiences of the disciples and their meaning for us redemption the Trinity sexuality and ecclesiology and original sin But he is mainly known for being the theologian of desire self love to self gift desire is love trying to happen to be myself for another and the insight that there is

no more wonderful reality than to be desired by the one you desire      **A Genealogy of Social Violence** Clint

Jones,2016-03-03 Examining the mimetic theory of Ren Girard this book investigates the development of society as a result of an original crime a murder that shaped the way the earliest humans organized the social structures we live with today an analysis that reveals the dangerous structure of the most basic social relationships With attention to family relationships A Genealogy of Social Violence sheds light on the processes by which the traditional nuclear family through the mimetic behaviour of children embeds violence into human desires and hence society as whole Challenging the thought of Girard and of Rawls in order to offer a new understanding of justice this book suggests that in order to achieve a more peaceful society what is required is not the self defeating narrative of equality developed in order to manage the violence engendered by our social institutions but a reconceptualisation of the nuclear family structure A striking critique of modern society which draws on religion mythology literature history philosophy and political theory A Genealogy of Social Violence will be of interest to social and political theorists as well as philosophers working in the area of contemporary social and European thought

**Religion and Violence** Dominic Arcamone,2015-08-17 The aim of Religion and Violence is to engage dialectically key symbols of religiously motivated violence through the insights of Bernard Lonergan Sociologists and psychologists argue the link between religion and violence Religion is viewed more as part of the problem and not part of the solution to violence Bernard Lonergan s insights have helped the author arrive at a number of conclusions regarding the link between religion and violence He argues that there is a difference between distorted religion and genuine religion between authenticity and inauthenticity of the subject Distorted religion has the capacity to shape traditions in ways that justify violence while genuine religion heals persons helps them make different moral decisions when confronted with situations of conflict and aims to explore new ways of understanding themselves as shaping history toward progress Further Religion and Violence while arguing from within the Catholic Christian tradition nevertheless seeks to provide a number of categories that will speak to people from other cultural traditions Since many of the examples of religious violence cited by commentators come out of the Islamic tradition the author has evidenced and explored more authentic aspects of the Islamic tradition that would help provide a solution to violence      **Contagion** ,2007      Discovering the Comic in Don Quixote Laura J. Gorfkle,Laura

Gillman,1993 Gorfkle challenges the assumption that the comic is inferior to the tragic as a vehicle for expressing serious thought and the belief that the comic has only a secondary function in Cervantes s Don Quixote She systematically surveys the comic mechanisms of the novel from the perspectives of the contemporary literary theories of Bakhtin Girard and Derrida

*The Superstitions of Witchcraft* Howard Williams,1865 This volume contains a history of the practice of witchcraft including the origin prevalence and varieties of superstitions that flourished in the 16th and 17th centuries      **Undergoing God** James Alison,2006-11-27 From the Catholic theologian priest and author of Knowing Jesus comes this collection of thoughts on lesbian and gay issues reconciliation the Eucharist psychology and evil and worship in a violent world      **Life**

**Together in the Way of Jesus Christ** Dan R. Stiver, 2009 Dan Stiver has crafted an engaging one volume introduction to Christian beliefs based on his experience teaching introductory theology courses While describing how traditional theology came to be he explains for both undergraduates and graduate students how theology is already a part of their life of faith As he examines traditional theological issues and such current topics as globalization and ecology Stiver treats theology as a living dynamic activity Employing useful case studies his groundbreaking approach helps students understand what theology is and shows them that they are participants in creating an ongoing vigorous theology that will remain at the center of their faith for the rest of their lives     Vixens Disturbing Vineyards Harry Fox, 2010 Written in a variety of disciplines these essays rethink canonical texts through Harry Fox's rubric contributing to the understanding of historical and textual moments of embarrassment and embrace Contributors include Yaakov Elman Paul Heger Tirzah Meacham Yosef Tubi and the late Chana Safrai as well as many students colleagues and friends of Professor Fox     Human Rights in Crisis Peter R. Stork, 2007 Relying on Rene Girard's theory of mimetic desire and the dramatic theology of Raymund Schwager this monograph examines the fragility and failure of the human rights system when faced with escalating global violence One of the author's central concerns is the human condition that makes violence foundational to the social order He also argues that the human rights crisis is neither an accident nor a shortfall in implementation but the result of subconscious collective structures of civilization itself In the theological key the author relates the notion of imitative desire to data of Christian hope enabling the reader to reflect on important questions of human rights from a fresh perspective This highly topical and necessarily controversial work should appeal to a broad readership Social and political scientists educators contextual theologians as well as readers with a critical concern for the future of human rights and those who are searching for new approaches to the problem of mounting violence will find this wide ranging anthropological and theological investigation both provocative and encouraging     **The Spitfire** Edward Peple, 1908     *The Black Diamond*, 1910     **Stricken by God?** Brad Jersak, Michael Hardin, 2007-09-25 Foreword by Willard Swartley Cover Includes bibliographical references and index     **The Hemingway Review**, 2016     **Harper's Magazine** Lee Foster Hartman, Frederick Lewis Allen, 1919     **Discover**, 1993     Our Admirable Betty Jeffery Farnol, 1918
