It helpfully explains what the will of God is and it challenges some popular wrong ideas such as the one perfect centre of God's will. The book also challenges some common thinking about Christian guidance for example that God still speaks to us today via dreams, prophets, feelings and happenings. The Bible provides all the guidance we need but it has to be interpreted properly. The roles of prayer, reason and faith are carefully explained. This book brings great relief to those burdened with subjective forms of guidance so common today.
