*Discussion* Dennis S. Gouran, 1974      **Small Group Decision Making: Communication and the Group Process** B. Aubrey Fisher, 1974      *The Handbook of Group Communication Theory and Research* Lawrence R. Frey, Dennis Gouran, Marshall Scott Poole, 1999-07-08 The Handbook of Group Communication Theory and Research establishes a central resource for the field documenting and synthesizing the work done in group communication's 50 year history. With contributions from the most experienced and respected scholars in the field, the editors Lawrence R. Frey, Dennis S. Gouran and Marshall Scott Poole present an overview of group communication study and examine a variety of theoretical positions and methodological practices. The volume is divided into six broad areas of communication scholarship: Foundations of group communication theory and research; Individuals and group communication; Task and relational group communication; Group communication processes; Group communication facilitation; Group communication contexts and applications. The sections serve as a crossroads where various paths pursued in each area meet, summarize, and suggest new maps and roads that need to be followed in the future. Offering a comprehensive history of group communication theory and research and establishing new conceptual perspectives and research agendas for future group communication scholars, this important resource will be an unrivalled tool for scholars, researchers, educators, practitioners, and students alike.

**Soft Computing Applications for Group Decision-making and Consensus Modeling** Mikael Collan, Janusz Kacprzyk, 2017-06-30 This book offers a concise introduction and comprehensive overview of the state of the art in the field of decision making and consensus modeling with a special emphasis on fuzzy methods. It consists of a collection of authoritative contributions reporting on the decision making process from different perspectives from psychology to social and political sciences, from decision sciences to data mining and from computational sciences in general to artificial and computational intelligence and systems. Written as a homage to Mario Fedrizzi for his scholarly achievements, creative ideas, and long lasting services to different scientific communities, it introduces key theoretical concepts, describes new models and methods, and discusses a range of promising real world applications in the field of decision making science. It is a timely reference guide and a source of inspiration for advanced students and researchers.

**Group Dynamics in Recreation and Leisure** Timothy S. O'Connell, Brent Cuthbertson, 2009 This title introduces group dynamics theory and research as it applies to recreation and leisure settings.
