# Disinherited Children A Study Of The New Left And The Generation Gap

**John George,Laird M. Wilcox**

## **Disinherited Children A Study Of The New Left And The Generation Gap:**

**The Disinherited Children** Christopher Bone,1977      **Making Peace with the 60s** David Burner,2021-07-13 David Burner s panoramic history of the 1960s conveys the ferocity of debate and the testing of visionary hopes that still require us to make sense of the decade He begins with the civil rights and black power movements and then turns to nuanced descriptions of Kennedy and the Cold War the counterculture and its antecedents in the Beat Generation the student rebellion the poverty wars and the liberals war in Vietnam As he considers each topic Burner advances a provocative argument about how liberalism self destructed in the 1960s In his view the civil rights movement took a wrong turn as it gradually came to emphasize the identity politics of race and ethnicity at the expense of the vastly more important politics of class and distribution of wealth The expansion of the Vietnam War did force radicals to confront the most terrible mistake of American liberalism but that they also turned against the social goals of the New Deal was destructive to all concerned Liberals seemed to rule in politics and in the media Burner points out yet they failed to make adequate use of their power to advance the purposes that both liberalism and the left endorsed And forces for social amelioration splintered into pairs of enemies such as integrationists and black separatists the social left and mainline liberalism and advocates of peace and supporters of a totalitarian Hanoi Making Peace with the 60s will fascinate baby boomers and their elders who either joined denounced or tried to ignore the counterculture It will also inform a broad audience of younger people about the famous political and literary figures of the time the salient moments and above all the powerful ideas that spawned events from the civil rights era to the Vietnam War Finally it will help to explain why Americans failed to make full use of the energies unleashed by one of the most remarkable decades of our history      *The 1960s Cultural Revolution* John C.

McWilliams,2020-12-02 The 1960s Cultural Revolution is a highly readable and valuable resource revisiting personalities and events that sparked the cultural revolutions that have become synonymous with the 1960s The 1960s Cultural Revolution A Reference Guide is an engagingly written book that considers the forces that shaped the 1960s and made it the unique era that it was An introductory historical overview provides context and puts the decade in perspective With a focus on social and cultural history subsequent chapters focus on the New Left the antiwar movement the counterculture and 1968 a year that stands alone in American history The book also includes a wealth of reference material a comprehensive timeline of events biographical profiles of key players primary documents that enhance the significance of the social political and cultural climate a glossary of key terms and a carefully selected annotated bibliography of print and nonprint sources for further study      **The Disinherited Children** Christopher Bone,1977      **Historical Dictionary of the 1960s** James S.

Olson,1999-12-30 Few eras in U S history have begun with more optimistic promise and ended in more pessimistic despair than the 1960s When JFK became president in 1960 the U S was the hope of the world Ten years later American power abroad seemed wasted in the jungles of Indochina and critics at home cast doubt on whether the U S was really the land of

the free and the home of the brave This book takes an encyclopedic look at the decade at the individuals who shaped the era the civil rights movement the antiwar movement the women s movement and the youth rebellion It covers the political military social cultural religious economic and diplomatic topics that made the 1960s a unique decade in U S history The Psychohistory Review ,1988 *Revolutions and Revolutionists* Robert Blackey,1982 **Guide to the American Left** ,1999 *Children of Privilege* Cyril Levitt,1984 **Universal Reference System** Springer,1980-10-01 **Social Problems** Thomas J. Sullivan,1980 **Books in Print** ,1982 **Nazis, Communists, Klansmen, and Others on the Fringe** John George,Laird M. Wilcox,1992 The freedoms guaranteed by our Bill of Rights have allowed a simmering subculture of political fringe groups to develop and even to flourish in America as they have in no other nation These radical associations sometimes dangerous sometimes merely quirky illuminate a dark part of the American psyche In this encyclopedic work John George and Laird Wilcox present a thorough and fair assessment of extremist groups on the periphery of the American political system The authors begin by surveying the history of the extremist trend in America prior to 1960 They then delineate the general characteristics of extremism on both ends of the political spectrum relate extremism to constitutional principles and analyze the factors that motivate fringe group members The bulk of the book is devoted to an in depth discussion of more than forty separate groups from the extreme right and left The authors examine each group s history beliefs and current activities The book concludes with a fascinating appendix on the use of fake quotes and fabricated documents a common ploy of many extremist organizations *Reform and Reaction in Twentieth Century American Politics* John J. Broesamle,1990-04-24 This work provides an overview and analysis of the rise development decline and end of liberal reform movements and their alternation with periods of reaction in the United States from the 1890s through the mid 1980s Broesamle s volume reassesses the course of U S political history over the last century and presents a new theory of American politics that reinterprets the way the system actually produces change He relates the life cycles of reform movements to the key social economic and cultural developments of their eras investigates commonalities among movements and assesses the extent to which each movement is individual No other history of liberalism has propounded the same thesis The work is ambitious in its intellectual breadth and inclusiveness and exceptionally comprehensive in both design and execution Reform and Reaction answers the questions What is the exact nature of the reform reaction rhythm What gives rise to it Is it truly cyclical Does each crest and trough resemble its prior and succeeding counterpart or are they distinct If there is a resemblance can these political transformations be expected to repeat themselves in the future The answers to these questions will alter previous perceptions of the relationship between the political realm and society at large and especially with respect to such phenomena as upheavals of youth the rise and decline of campaigns on behalf of workers and farmers feminist movements and changing moral standards The study is divided into three major sections Reform Resistance and Reaction each of which is preceded by a short introductory essay that establishes its fundamental direction By employing

historical examples and resurveying the chronological territory chapter by chapter the study details the reform movements of the Progressive Era the New Deal and the Kennedy Johnson period of the 60s as well as the reactionary periods of the 1920s the 1950s and the 1970s and 1980s Broesamle establishes links between political trends on one hand and social and intellectual trends on the other that have not been delineated before Reform and Reaction in Twentieth Century American Politics has a wide appeal to a very broad audience professors and teachers in the fields of twentieth century U S history and political science practicing political professionals journalists covering the American political scene and any informed generalist interested in learning more about historical and contemporary politics in the U S The book would be an addition to the reading lists for graduate and upper division classes on virtually any aspect of American political history from the 1890s to the mid 1980s as well as courses on current political affairs      **Sociological Abstracts** Leo P. Chall,1998 CSA

Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers      **Subject**

**Catalog, 1978** Library of Congress,1978      **Whitaker's Cumulative Book List** ,1978      The 1960s Rebecca

Jackson,1992-12-10 The 1960s were a particularly turbulent period and the events of those years continue to interest and influence American society This bibliography records and documents the most significant happenings of that decade The volume spans the years between 1960 and the resignation of President Nixon in 1974 It includes citations for more than 1300 books related to that period Some of the books were written during the 1960s and directly influenced people of that time Others were written afterward and analyze and interpret the events of the decade The entries are arranged in topical chapters and each citation is accompanied by a descriptive and evaluative annotation The volume begins with an introduction that overviews and discusses the major events and trends of the time The 17 topical chapters that follow treat virtually every aspect of life in the 1960s The first few chapters include general works on the underlying social political and economic conditions that served to define the decade Other chapters discuss works on the presidencies social protests the impact of the Vietnam war the cultural revolution and trends in art music literature and religion The bibliography concludes with author title and subject indexes that add to its value as a reference tool      The Cumulative Book Index ,1978 A world list of books in the English language      **The British Studies Monitor** ,1972
