Immovable Laws, Irresistible Rights Christine Pierce, 2000 Same sex partnerships Pregnancy through in vitro fertilization Ending one's own life in dignity All are deemed inherently wrong by the standards of natural law ethics but for many people they represent legitimate life choices that are morally right Now a

leading feminist critic of the natural law tradition explores the ongoing confrontation between natural law and moral rights to argue that rights constitute a more solid grounding for ethics in human affairs and for feminist thought In this volume Christine Pierce's important essays including the celebrated *Natural Law Language and Women* expand reflect and refine this central controversy Reaching back to Aristotle and Aquinas and drawing on modern papal encyclicals and Supreme Court cases Pierce demonstrates that the natural law tradition with its doctrine of a supposed hierarchy of natural purpose has served to mystify women's nature and thereby justify restricting women to a predetermined social stratum Addressing issues that concern not only feminism but legal theory as well she defends her views on equality and universalization against a growing postmodern critique and presents rights theory as an alternative to an ethics of responsibility based on Aristotelian notions of friendship and trust Through tightly constructed arguments presented in engaging prose Pierce conveys her deep knowledge of legal philosophy and her passion for rights as she takes on such issues as AIDS gay marriage animal liberation and feminist separatism She combats the prevailing view of Plato as sexist and explores Sartre's views of holes and slime She also examines the work of contemporary authors in ecology biology sociobiology and religion to reveal their reliance on nature for ethical conclusions and she criticizes recent efforts to root a feminist natural law in Thomism With natural law concepts now in fashion with many conservatives and even some Supreme Court justices Pierce's essays offer a necessary perspective on where current legal and ethical thinking is headed *Immovable Laws Irresistible Rights* is invigorating reading for all scholars students and interested readers who seek a better understanding of these arguments and the issues affected by them *UCLA Women's Law Journal* ,2007 **Diaspora** ,2002 **Promises and Realities** African Centre for Technology Studies,African Women and Child Feature Service,2009 Accompanying DVD entitled Gender issues in the Kenyan society **Crossing Borders** Hilda Rømer Christensen,Beatrice Halsaa,Aino Saarinen,2004 This anthology indicates the many and multi layered ways in which women's movements have developed in the past and the challenges that face women's movements today Covering a broad range of issues the book strives for re narration and re location of one of the major social movements of the 20th century and for fresh analysis of the latest trends The framework for the texts has been set by recent structural ideological and cultural changes towards globalization including the end of the Cold War bipolarization immigration and multiculturalism The changes have produced new fields of cooperation and conflicts within the women's movements and generated new questions that are dealt with in four main sections Choice Outstanding Academic Title 2005 *Global Heritage* ,2007 **Social Problems** ,1953 *Transnational America* Inderpal Grewal,2005-06-28 A study of South Asian Americans which views both their identity and that of America as constructed transnationally between the U S and India *Youth, Globalization, and the Law* Sudhir Alladi Venkatesh,Ronald Kassimir,Social Science Research Council (U.S.). Edwards, Kim Marie Vaz, 2008 The presence of women of color within the practical applications of social science research findings is severely limited since spaces where and when women of color enter the arenas of research methodology research question and intervention design and knowledge generation is often that of the other Benefitting by Design addresses this limitation It does so by locating the experience and knowledge of women of color as its central theme with sections of the text referring to emerging trends that attend to the need for greater representation of women of color in research and academic settings A key theme is the dislodging of currently accepted positions for the experience of women of color as marginalized and subsumed under normative modes of examination to central positions in areas of social science research and clinical practice This is in response to the typical assumption of the need to fix TM women of color be it based on their immigration status sexual orientation race culture class or spiritual practice Benefitting By Design attends to the salient contexts of the lives of women of color from an emic perspective by providing models for addressing the limitations that result from exclusion and strategies for centering the experiential knowledge of women of color in social science research and practice that is designed for their benefit
