Discourse Studies in Mesoamerican Languages ,1979 **Discourse Studies in Mesoamerican Languages** Linda Kay The Grammar of Discourse Robert E. Longacre, 2013-11-21 In that The Anatomy of Speech Notions 1976 Iones, 1979 was the precursor to The Grammar of Discourse 1983 this revision embodies a third edition of some of the material that is found here The original intent of the 1976 volume was to construct a hierarchical arrangement of notional categories which find surface realization in the grammatical constructions of the various languages of the world The idea was to marshal the categories that every analyst regardless of theoretical bent had to take account of as cognitive entities The volume began with a couple of chapters on what was then popularly known as case grammar then expanded upward and downward to include other notional categories on other levels Chapters on dis course monologue and dialogue were buried in the center of the volume In the 1983 volume the chapters on monologue and dialogue discourse were moved to the fore of the book and the chapters on case grammar were made less prominent the volume was then renamed The Grammar of Discourse The current revision features more clearly than its predecessors the intersection of discourse and pragmatic concerns with grammatical structures on various levels It retains and expands much of the former material but includes new material reflecting current advances in such topics as salience clines for discourse rhetorical relations paragraph structures transitivity ergativity agency hierarchy and word order typologies Stanzaic Syntax in the Madrashe of Ephrem the Syrian Paul S. Stevenson, 2015-11-02 In Stanzaic Syntax in the Madrashe of Ephrem the Syrian which focuses on madr V and VI in the Paradise cycle Paul S Stevenson looks at Ephrem's poetic art from the point of view of a linguist This study goes beyond the traditional levels of analysis the clause and the sentence and examines the structure of whole stanzas as units The result is a surprisingly rich tapestry of syntactic patterning which can justly be considered the key to Ephrem's prosody The driving force behind Ephrem's poetry turns out not to be meter or sound play but a variety of syntactic templates which include even vertical patterning of constituents DICCIONARIO TARAHUMARA DE SAMACHIQUE K. Kathryn Josserand, 1984 Text ,1981 <u>Discourse Analysis of Biblical Literature</u> Walter Ray Bodine, 1995 In committing themselves to the study of texts linguists have taken a long stride in a literary direction As discourse analysis brings the tools of linguistic analysis to bear on stretches of material larger than the sentence they come into close contact with the artistry of literature In the last third of this century scholars of the Hebrew Bible are gravitating in

the same direction Perhaps even more consciously they are studying their texts as literature Cross pollination between these two groups is now in order The present volume is intended to help that happen It originates with biblical scholars and is addressed to our colleagues Its purpose is to introduce to them the developing field of linguistics known as discourse analysis In addition to students of the Hebrew Bible those who study ancient Near Eastern literatures the New Testament and early Jewish writings should find the following essays immediately relevant Students of literatures from other times and areas should also be able to benefit because of the pervasive emphasis on methodology Preface **Discourse Studies in Mesoamerican Languages** Linda K. Jones, Robert E. Longacre, 1979 Proceedings of Eurocogsci 03 Franz Schmalhofer, Richard M. Young, Graham Katz, Katz Graham, 2019-05-20 The aim of the European Cognitive Science Conference is the presentation of empirical theoretical and analytic work from all areas of interest in cognitive science such as artificial intelligence education linguistics neuroscience philosophy psychology and anthropology The focus is on interdisciplinary work that is either of interest for more than one of the research areas mentioned or integrates research methods from different fields With contributions by cognitive scientists from 20 different countries the papers in this volume reflect the origins of this conference as well as its international scope Summer Institute of Linguistics Publications in Studies in the Syntax of Mixtecan Languages Charles Henry Bradley, 1988 Linguistics ,1983 *Publications of the* Summer Institute of Linguistics Summer Institute of Linguistics (Dallas, Tex.),1993 Bannānukrom wačhana wikhro Somsonge Burusphat, 1990 Bibliography of the Summer Institute of Linguistics Summer Institute of Linguistics, Alan Campbell Wares, 1992 Publications Catalog of the Summer Institute of Linguistics International ,1987 Theory and Application in Processing Texts in Non-Indoeuropean Languages Robert E. Smith, 2014-06-26 In The Representation of Speech Events in Chariton's Callirhoe and the Acts of the Apostles Adrian T Smith summarizes cross linguistic research on how and why narrators vary the formulae that introduce direct speech This research is applied to Chariton and to Acts The findings demonstrate that narrators vary quotation formulae for numerous pragmatic purposes
