*Carpentier's Baroque Fiction* Steve Wakefield, 2004 Carpentier was one of the first novelists to introduce a version of magical realism and the neo baroque into Latin American fiction This study focuses on one of the first novelists to introduce a version of magical realism and the neo baroque into Latin American fiction Original research colours eyewitness accounts of Alejo Carpentier s travels through Spain before and during the Spanish Civil War and the inspiration that he drew from the Baroque architecture he encountered there The origins of Carpentier s uniquely baroque style are found in his endeavour to create a period ambience in his historical fictions through descriptions of visual arts and architectural settings and parodies of the literary style of Spanish Golden Age writers Medusa s gaze is used as a metaphor for the petrifying power of the Baroque as a weapon of European dominance By wielding the same weapon in an act of postcolonial defiance

Carpentier enabled a reassertion of Latin American culture and laid the foundations for the 1960s Boom in the Latin American novel STEVE WAKEFIELD is Visiting Research Fellow at the University of New South Wales Australia
