Cultural Models and Collective Mentalities in Literature, Art, and Philosophy Slav Gratchev, Valery Chirkov, 2025-07-10 This edited collection combines social science and humanities inquiries to examine the collective mentalities identities and national cultural models of people from different communities and nations Unpacking the sociocultural mechanisms of people s actions and experiences the contributors use literary works to illustrate and further explore such mechanisms. This book explores a variety of diverse geographies from around the globe in order to compare national forms of human subjectivity and further examine collective consciousness and cultural minds and Pluralism Joseph Rivera, 2018-05-03 Reviving the ancient political wisdom of St Augustine in combination with insights drawn from contemporary political theorist John Rawls Joseph Rivera grapples with the polarizing nature of religion in the public square Political theology as a discipline tends to argue that communitarianism remains the only viable political option for religious practitioners in a complex pluralist society Unsurprisingly we are increasingly accustomed to think the religious voice is anti secular and illiberal On the contrary Christian theology and political liberalism Rivera argues are not incompatible Political Theology and Pluralism challenges the longstanding antithesis between theology and political liberalism by asking his readers to focus not on difference but on our common humanity Outlining real strategies for public dialogue in a liberal state Rivera offers the opportunity to discover what it means to practice civic friendship in pluralist The Human Paradox Ralph Heintzman, 2022-08-31 What is a human being What does it mean to be human How context can you lead your life in ways that best fulfil your own nature In The Human Paradox Ralph Heintzman explores these vital questions and offers an exciting new vision of the nature of the human The Human Paradox aims to counter or correct several contemporary assumptions about the nature of the human especially the tendency of Western culture since the seventeenth century to identify the human with rationality and the rational mind Using the lens of the virtues The Human Paradox shows how rediscovering the nature of the human can help not just to understand one s own paradoxical nature but to act in ways that are more consistent with its full reality Offering accessible insight from both traditional and contemporary thought The Human Paradox shows how a fuller richer vision of the human can help address urgent contemporary problems including the challenges of cultural and religious diversity human migration and human rights the role of the market artificial intelligence the future of democracy and global climate change This fresh perspective on the Western past will guide readers into what it means to be human and open new possibilities for the future Sacred and Profane in Chaucer and Late Medieval Literature Will Robins, 2010-01-01 Literary depictions of the sacred and the secular from the Middle Ages are representative of the era's widely held cultural understandings related to religion and the nature of lived experience Using late Medieval English literature including some of Chaucer's writings these essays do not try to define a secular realm distinct and separate from the divine or religious but instead analyze intersections of the sacred and the profane suggesting

that these two categories are mutually constitutive rather than antithetical With essays by former students of John V Fleming the collection pays tribute to the Princeton University professor emeritus through wide ranging scholarship and literary criticism Including reflections on depictions of Bathsheba Troilus and Criseyde the Legend of Good Women Chaucer s Pardoner and Margery Kempe these essays focus on literature while ranging into history philosophy and the visual arts Taken together the work suggests that the domain of the sacred as perceived in the Middle Ages can variously be seen as Jean-Luc Nancy and Christian Thought having a hierarchical or a complementary relationship to the things of this world Christina Smerick, 2017-12-06 Jean Luc Nancy and Christian Thought explores Nancy s deconstruction of Christianity via the various bodies of Christ that accumulate in Christian doctrine specifically the incarnated body the resurrected body and the body of Christ the church The work ties Nancy's deconstruction to the writings of the early church demonstrating that the seeds of auto deconstruction are indeed sown in the doctrines of Western Christianity It then provides brief sketches of current theological works that touch upon similar deconstructive themes Thus the work aims to flesh out Nancy s deconstruction for the non theologian tying his complex scans of Christian thought to early patristics and also aims to help theologians unfamiliar with deconstruction or with Nancy s work recognize the value of the deconstructive method for unpacking Christian doctrine and practice This book will be of interest to philosophers of religion hermeneutics and post Frankfort School critical theory and theologians interested in current French philosophy of religion Melissa Vise, 2025-01-21 A cultural history of speech in medieval Italy The Unruly Tongue a cultural history of speech in medieval Italy offers a new account of how the power of words changed in Western thought Despite the association of freedom of speech with the political revolutions of the eighteenth century that ushered in the era of modern democracies historian Melissa Vise locates the history of the repression of speech not in Europe's monarchies but rather in Italy's republics Exploring the cultural process through which science and medicine politics law literature and theology together informed a new political ethics of speech Vise uncovers the formation of a moral code where the regulation of the tongue became an integral component of republican values in medieval Europe The medieval citizens of Italy s republics understood themselves to be wholly subject to the power of words not because they lived in an age of persecution or doctrinal rigidity but because words had furnished the grounds for their political freedom Speech making was the means for speaking the republic itself into existence against the opposition of aristocracy empire and papacy But because words had power they could also be deployed as weapons Speech contained the potential for violence and presented a threat to political and social order and thus needed to be controlled Vise shows how the laws that governed and curtailed speech in medieval Italy represented broader cultural understandings of human susceptibility to speech Tracing anthropologies of speech from religious to political discourse from civic courts to ecclesiastical courts from medical texts to the works of Dante and Boccaccio The Unruly Tongue demonstrates that the thirteenth century marked a major shift in how people perceived the

power and the threat of speech a change in thinking about what words do Calvin O. Schrag and the Task of Philosophy After Postmodernity Calvin O. Schrag, 2002 This collection of essays is a critical document in Continental philosophy reflecting its recent history its present state and its debt to Calvin O Schrag It begins with an overview of philosophy s role and responsibility or task and of Schrag's contributions to it written from the perspective of a resolute defender of the phenomenological tradition that Schrag s work has extended and reconfigured The essays are organized around the four conceptual figures widely considered Schrag s most significant and original philosophical achievements transversal rationality the self after post modernity the fourth cultural value sphere and communication praxis The authors focus on topics ranging from Cartesian rationality to Foucauldian rational relativism from transcendence in relation to the self to the Schragean self's connections with discourse action and community from religion's disruptive presence in contemporary philosophy to recent developments in the philosophy of language The Re-Enchantment of the West Christopher Partridge, 2004 Challenging some assessments of religion in the West this study argues that although much organized religion particularly Christianity is in numerical decline in actual fact we are witnessing an alternative spiritual re enchantment of society and culture In the Eyes of God Fernando Escalante Gonzalbo, 2006-03 Every culture needs to appropriate the universal truth of human suffering says Fernando Escalante to give its own meaning to this suffering so that human existence is bearable Originally published in Spanish as La mirada de Dios Estudios sobre la cultura del sufrimiento this book is a remarkable study of the evolution of the culture of suffering and the different elements that constitute it beginning with a reading of Rousseau and ending with the appearance of the Shoah in the Western consciousness The memory endures and this constitutes a fundamental transition for the Western conscience we have witnessed Drawing on writings from the Greeks to Cervantes Voltaire to Nietzsche and Freud to William James Escalante combines his considerable knowledge of politics and political theory with a vast array of literary examples to arrive at an intellectual understanding of the history and meaning of suffering His investigation encompasses the rise of popular politics the role of messianism in modern nationalism and the contemporary implications of the Shoah This book will appeal to a wide audience students of political theory humanism and philosophy as well as the general reader interested in a glimpse into the mind of a highly original Latin American thinker Hallowing Days Gregory Ethan Kaplan, 2003 Polygraph .2005 Hermeneutics and Religious Education Herman Lombaerts, Didier Pollefeyt, 2004 Murder, Manners, Mystery Peter C. Erb, 2007 Highlighting popular works by P D James Colin Dexter Ian Pears and Umberto Eco among others this is an intriguing examination of the treatment of religion in the genre of contemporary murder mystery novels. The other central theme examined in this book is that of justice The narrative of any detective fiction novel depends on the murderer's ability to replace a crime with a convincingly constructed illusion of innocence and to escape punishment by means of good manners Erb also looks in detail at the theme of retribution in detective fiction Can justice ever be anything more than retribution death without hope What

satisfaction can be made for the loss of a human life How can a murderer ever fully confess a crime and experience thanksgiving in final release from the consequences Contagion ,2003 On the Outlook Thomas Crombez.Katrien Vloeberghs, 2007 This volume explores the traditional and contemporary modes and stakes of messianic thinking in its close interaction with both previous and actual political contexts and theoretical discourses In the past decades philosophers and political thinkers repeatedly drew upon the millennial tradition of messianic thinking in their efforts to come to terms with the injustices of the present Their conceptions of messianism build upon and revise modify or radicalize politico theological theories developed in the period between the two world wars by thinkers who in the face of doom and destruction reverted to ancient Judeo Christian visions of redemption The essays address the ways in which today TM s messianic thinking relates to its historical Jewish and Christian origins and how it deals with the legacy of its early twentieth century precursors such as Walter Benjamin Franz Rosenzweig Ernst Bloch Gerschom Scholem and Theodor W Adorno Historically attitudes toward messianism interact with the political and historical conditions as well as with the prevailing theoretical and philosophical discourses of their times Cross fertilization between messianism politics and philosophy also inform recent conceptualizations of history and time language and the law in the writings of Emmanuel L c vinas Jacques Derrida and most recently Giorgio Agamben The analysis of messianism in contemporary discourse encourages reflections on the following core questions How does messianism figure in modern and contemporary philosophy How does it relate to today TM s state of affairs in the juridical political and social realm Is it still primarily a Jewish concern and how has it interacted with other religious and political traditions. How does the impact of Jewish messianism on modern philosophy compare with and relate to other influences of Jewish thought such as the legalistic tradition The contributors to this volume shed light on as divergent aspects of messianism as its socio historical embeddedness its discontinuous historiography its manifestations in literature **The Republic of Grace** Douglas Bradford Palmer, 2004 Abstract and the arts and its complex relation to human agency At the center of eighteenth century international Jansenism were a group of migr French priests living in the Dutch city of Utrecht where they coordinated the efforts of a learned and cosmopolitan group of clerics university professors and governmental officials an international Republic of Grace that both resembled and competed with the Enlightenment's Republic of Letters It was a religious and intellectual community that was dedicated to reform within the Catholic Church consciously pan European in its outlook and in the eighteenth century threatened the political and religious foundations of Europe s Old Regime Jansenist religious reform carried out in the spirit of the Counter Reformation crossed from the religious sphere into the political so that Jansenists viewed the French Revolution as the opportunity to complete the task of the Counter Reformation Church And because this debate was waged in the eighteenth century it utilized the century s most powerful tool for manipulating public opinion the pen and printing press Modeled on the studies of the eighteenth century public sphere inspired by J rgen Habermas s The Structural Transformation of the Public Sphere An Inquiry into a Category

of Bourgeois Society this dissertation argues that Habermas public sphere is far too limited in scope for he claimed that the basis for its growth was bourgeois and secular in nature The activities of the Jansenists however demonstrate a public sphere that was religious in nature where faith mattered more than reason well into the eighteenth and even the nineteenth century Furthermore this dissertation significantly adds to the intellectual and cultural history of eighteenth century Europe and the origins of the French Revolution by analyzing the contributions made by the international Jansenist community to the revolutionary discourse of late eighteenth century Europe The Times Index ,1998 Indexes the Times Sunday times and magazine Times literary supplement Times educational supplement Times educational supplement Scotland and the Times Fields of the Lord Lorraine V. Aragon, 2000 Annotation Religious and ethnic violence higher education supplement between Indonesia's Muslims and Christians escalated dramatically just before and after President Suharto resigned in 1998 In this first major ethnographic study of Christianization in Indonesia Lorraine Aragon delineates colonial and postcolonial circumstances contributing to the dynamics of these contemporary conflicts Aragon's ethnography of Indonesian Christian minorities in Sulawesi combines a political economy of colonial missionization with a microanalysis of shifting religious ideology and practice Fields of the Lord challenges much comparative religion scholarship by contending that religions like contemporary cultural groups be located in their spheres of interaction rather than as the abstracted cognitive and behavioral systems conceived by many adherents modernist states and Western scholars Through its careful documentation of colonial missionary tactics unexpected postcolonial upheavals and contemporary Christian narratives Fields of the Lord analyzes the historical and institutional links between state rule and individuals religious choices Double Exposure Bernard Faure, 2004 This book explores the possible relations between Western types of rationality and Buddhism It also examines some clich's about Buddhism and questions the old antinomies of Western culture faith and reason or idealism and materialism The use of the Buddhist notion of the Two Truths as a hermeneutic device leads to a double or multiple exposure that will call into question our mental habits and force us to ask questions differently to think in a new key Double Exposure is somewhat of an oddity Written by a specialist for nonspecialists it is not a book of vulgarization Although it aims at a better integration of Western and Buddhist thought it is not an exercise in comparative philosophy or religion It is neither a contribution to Buddhist scholarship in the narrow sense nor a contribution to some vague Western spirituality Cutting across traditional disciplines and blurring established genres it provides a leisurely but deeply insightful stroll through philosophical and literary texts dreams poetry and paradoxes **Journal of Narrative Theory** ,2002 Cultural studies critical theory poststructuralism feminist theory new historicism
