Weaving Chiapas Yolanda Castro Apreza, Charlene Woodcock, K'inál Antsetik, A.C., 2018-02-08 In the highlands of Chiapas Mexico a large indigenous population lives in rural communities many of which retain traditional forms of governance In 1996 some 350 women of these communities formed a weavers cooperative which they called Jolom Mayaetik Their goal was to join together to market textiles of high quality in both new and ancient designs Weaving Chiapas offers a rare view of the daily lives memories and hopes of these rural Maya women as they strive to retain their ancient customs while adapting to a rapidly changing world Originally published in Spanish in 2007 this book captures firsthand the voices of these Maya artisans whose experiences including the challenges of living in a highly patriarchal culture often escape the attention of mainstream scholarship Based on interviews conducted with members of the Jolom Mayaetik cooperative the accounts gathered in this volume provide an intimate view of women's life in the Chiapas highlands known locally as Los Altos We learn about their experiences of childhood marriage and childbirth about subsistence farming and food traditions and about the particular styles of clothing and even hairstyles that vary from community to community Restricted by custom from engaging in public occupations Los Altos women are responsible for managing their households and caring for domestic animals But many of them long for broader opportunities and the Jolom Mayaetik cooperative represents a bold effort by its members to assume control over and build a wider market for their own work This English language edition features color photographs published here for the first time depicting many of the individual women and their stunning textiles A new preface chapter introductions and a scholarly afterword frame the women's narratives and place their accounts within cultural and historical context **Textile Horizons**, 1983 *Castilla's Spanish and English Technical Dictionary:*

Stephen, 2007-06-13 Lynn Stephen's innovative ethnography follows indigenous Mexicans from two towns in the state of Oaxaca the Mixtec community of San Agustín Atenango and the Zapotec community of Teotitlán del Valle who periodically leave their homes in Mexico for extended periods of work in California and Oregon Demonstrating that the line separating Mexico and the United States is only one among the many borders that these migrants repeatedly cross including national regional cultural ethnic and class borders and divisions Stephen advocates an ethnographic framework focused on transborder rather than transnational lives Yet she does not disregard the state She assesses the impact migration has had on local systems of government in both Mexico and the United States as well as the abilities of states to police and affect

transborder communities Stephen weaves the personal histories and narratives of indigenous transborder migrants together with explorations of the larger structures that affect their lives Taking into account U S immigration policies and the demands of both commercial agriculture and the service sectors she chronicles how migrants experience and remember low wage work in agriculture landscaping and childcare and how gender relations in Oaxaca and the United States are reconfigured by migration She looks at the ways that racial and ethnic hierarchies inherited from the colonial era hierarchies that debase Mexico s indigenous groups are reproduced within heterogeneous Mexican populations in the United States Stephen provides case studies of four grass roots organizations in which Mixtec migrants are involved and she considers specific uses of digital technology by transborder communities Ultimately Stephen demonstrates that transborder migrants are reshaping notions of territory and politics by developing creative models of governance education and economic development as well as ways of maintaining their cultures and languages across geographic distances Flowers for the Earth Lord Traci Ardren,2006 **Los textiles de la cueva de la Candelaria, Coahuila** Irmgard Weitlaner-Johnson,1977 Códices del estado de Hidalgo Víctor M.
