## **Disintegrating Indonesia Implications For Regional Security:**

**Disintegrating Indonesia?** Tim Huxley, 2013-09-13 Since the collapse of President Suharto's New Order regime in 1998 and the international intervention in East Timor in 1999 there has been much speculation in South east Asia and the West over whether Indonesia weakened by economic difficulties social distresses and political instability has a future as a coherent nation state This paper argues that although the separatist struggles in Aceh or Papua are unlikely to succeed in the foreseeable future other problems threaten to undermine the central government's control Communal disputes have led to chronic violence in Maluku Central Sulawesi and Kalimantan Simultaneously tension between Islamic and secular political forces has grown Indonesia's disarray has prompted international concern over an array of security threats including contagious secessionism Islamic terrorism the movement through Indonesia of asylum seekers piracy and environmental dangers In order to contain these security implications of Indonesia's protracted crisis concerned governments should continue assisting its fragile reform process particularly by helping Jakarta to manage the country's massive international debt However they should also coordinate their contingency planning for a further crumbling of Jakarta's authority

H. Tan, 2009-01-01 This is an important and worthwhile book that should be read by anyone seeking to understand the history and evolution of political violence in Southeast Asia including the origins of contemporary militant Islamist terrorism Paul J Smith Contemporary Southeast Asia This very fine collection shows how and why Southeast Asia has been afflicted with terrorism from the end of World War II to the present time No other volume tells us as much about the period and area Anyone interested in the general theory and practice of terrorism and insurgency will find it indispensable David C Rapoport University of California Los Angeles US and Editor of Journal of Terrorism and Political

Violence This stimulating collection of essays underlines how Southeast Asia has again as at the height of the Cold War been pushed towards the top of the list of world conflict zones by the collision between long standing regional problems and more recent external frictions Anyone needing to learn more about the relationship between the war on terror and Southeast Asia particularly regarding terrorism in Thailand Indonesia and the Philippines will need to consult this work Brian P Farrell National University of Singapore and author of *The Defence and Fall of Singapore 1940 1942* This book is an excellent addition to the literature on political violence in Southeast Asia providing a wealth of detail on terrorism guerilla insurgency and the use of terror and repression by governments The book is especially valuable for the broad coverage of many different groups not just Islamic ones inclusion of the activities of governments and a variety of opinions and views on terrorism and political violence This book should be one of the essential resources for academics policymakers or anyone else interested in terrorism insurgency and political violence in the region It is an extremely valuable tool for one and all James M Lutz Indiana University Purdue University US and co author of *Global Terrorism* with Brenda Lutz This is an excellent volume which is very well conceived and balanced in its treatment of the problem of terrorism and insurgency in Southeast Asia This volume will greatly advance our empirical understanding of conflict and violence in this pivotal region The book contains many insightful contributions and overall the Handbook will serve as a standard reference on the subject matter for years to come M L R Smith King s College University of London UK This timely and significant book seeks to explain the deep seated complexities of terrorism and insurgency in Southeast Asia In the aftermath of 9 11 this region has been designated by the United States to be the second front in the war on terrorism Yet despite the emergence of this new global terrorism the authors argue that armed rebellion in Southeast Asia is a phenomenon that predates Al Qaeda and the global Jihadist movement and that much can be learned from the motivations behind it Written by a group of leading Western and emerging Southeast Asian scholars this extensive volume demonstrates the difficulty and diversity of rebellion in Southeast Asia and explores its intricate historical political social and economic roots The book will serve as an excellent reference and educational text providing an empirical and regional guide to the complex problem of insurgency in Southeast Asia It will also contribute to a more educated understanding that could provide the basis for appropriate counter terrorism strategies in this important part of the world Comprehensive and engaging this volume will find widespread appeal amongst researchers students and policymakers interested in terrorism international relations and Asian studies and will also be an invaluable tool for studies into political violence and security

Dent, 2003-10-24 This collection examines new developments in economic and security co operation in the Asia Pacific in relation to two recent shock events that have significantly impacted upon the region these being the 1997 98 East Asian financial crisis and the September 11 attacks on the United States These are examined through three prime dimensions of analysis namely the tension between the post shock forces of imperative co operation and the counter forces of Asia Pacific complex diversity the growing conflation between economic and security issues or the economics security nexus in Asia Pacific international relations the relationship between the Asia Pacific s new economic and security bilateralism and regional level forms of co operation integration and governance *Maritime*

Indonesian role in regional security and support for development of a regional crisis reaction force A continued strong U S presence in the Asia Pacific region will reinforce the U S role as regional balancer

**Non-traditional Security in the Asia-Pacific** Ralf Emmers, 2004 This work studies the non traditional security agenda in the Asia Pacific focusing particularly on the dynamics of securitisation It questions why and how some issues are securitised and examines the policy outcomes that derive from securitising these concerns The conceptual discussion draws upon but also modifies the theory of securitisation and desecuritisation originally advanced by the Copenhagen School The empirical study analyses Thailand s securitisation of drug trafficking Singapore s combined securitisation of sea piracy and maritime terrorism and Australia s securitisation of people smuggling These various issues can be defined as forms of transnational crime The case studies consider the rhetoric used by the three countries concerned as well as their policy responses at the unilateral bilateral and multilateral level
