Disjointed Pluralism:

Disjointed Pluralism Eric Schickler, 2001-05-06 Institutional change within the US Congress has been a product of and a shaper of congressional politics. Academics have explained this in terms of a collective interest shared by members. This work makes the case that it is actually interplay among multiple interests that determines change. Congress Responds to the Twentieth Century Sunil Ahuja, Robert E. Dewhirst, 2003 Congress occupies a central place in the US political system. Its reach into American society is vast and deep. Overtime the issues it has confronted have increased in both quantity and complexity. At the beginning Congress dealt with a handful of matters whereas today it has its hands in every imaginable aspect of life. It has attempted to meet these challenges and has changed throughout the course of its history prodded by factors both external and internal to the institution. The essays in this volume argue therefore that as society changed throughout the twentieth century Congress responded to those changes. **Social Service Reform in the Postcommunist State**

Janelle A. Kerlin, 2005-06-28 The fall of Communist regimes in Eastern Europe raised the complex question of how social services were to be distributed and administered in countries with legacies of highly centralized state. In Poland a series of reforms attempted to modify and decentralize social service programs. Yet with Poland's second round of decentralization long held and clearly specified reform goals were undermined from the very outset. In this insightful detailed and carefully argued study Janelle A. Kerlin demonstrates how and why reforms intended to improve services and increase citizen participation in social service programming largely failed to meet expected goals. The politics of reform development including political deals, exclusionary tactics and hidden maneuvering by Polish policymakers prevented any significant upgrade of services or real change in decision making structures. Conflicting ideologies and pressures on policy actors stemming from historical institutional political and international sources often resulted in compromises that led to unfavorable public service outcomes. In this book Kerlin uses focused interviews with leading reform actors and a nationwide representative survey of two hundred public social service institutions to develop a model that connects the politics of the decentralization process with social service outcomes. Not only students of the former Soviet bloc but also those interested in the links between politics and policy outcomes more broadly will find in this volume an informative and instructive case study that has far reaching implications. *Building the Bloc* Ruth Bloch Rubin, 2017-08-11

Traversing more than a century of American history this book advances a new theory of congressional organization to explain why and how party dissidents rely on institutions of their own making arguing that these intraparty organizations can radically shift the balance of power between party leaders and rank and file members. Intraparty organizations empower legislators of varying ideological stripes to achieve collective and coordinated action by providing selective incentives to cooperative members transforming public good policies into excludable accomplishments and helping members to institute rules and procedures to promote group decision making. Drawing on rich archival evidence and interview data the book details the challenges dissident lawmakers

encounter when they face off against party leaders and their efforts to organize in response Eight case studies complicate our understanding of landmark fights over rules reform early twentieth century economic struggles mid century battles over civil rights legislation and contemporary debates over national health care and fiscal policy *Why Congress* Philip A. Wallach, 2023 To so many Americans Congress seems obsolete or useless Why do we even bother with it Why Congress offers a defense of Congress as the indispensable branch of government alongside a compelling account of how the institution has become so dysfunctional At its best in the mid 20th century Congress solved immense challenges like civil rights but Wallach's history shows how the subsequent rise of powerful leadership and the decline of committees have left Congress divided and decrepit As society feels divided and politics feels gridlocked Why Congress argues that only a revival of legislative deliberation can resolve our most pressing challenges *Divided Parties, Strong Leaders* Ruth Bloch Rubin, 2025-08-11 Drawing on nearly a century of legislative history this careful account invites readers to think anew about when why and how leaders of divided parties wield power in Congress For decades legislative scholars have viewed party divisions as critical constraints on congressional leadership The more a party's rank and file disagree with one another the weaker their leaders are predicted to be as member preferences converge leader power is thought to increase In a powerful corrective to this prevailing view Ruth Bloch Rubin argues that party divisions are not inherently limiting *Divided Parties Strong Leaders* highlights and examines variation in how members of party factions choose to work together She shows that leaders of divided parties are well positioned to overcome and even draw strength from their divided ranks when the collaborative efforts of their coalitions competing factions are evenly matched By contrast their capacity to get what they want is more limited when one faction has out collaborated its competition Presenting detailed case studies of some of the most storied leaders of the postwar Congress including Speakers Sam Rayburn and Nancy Pelosi Bloch Rubin analyzes the factional configuration each leader encountered and explains why it mattered for their exercise of power **The Philosophic Function of Value** Nathan Blechman, 1918 *Institutional Change in Legislatures* Aaron M. Stern, 2006 *The Principles and Problems of Philosophy* Roy Wood Sellars, 1926 *Congress Reconsidered* Lawrence C. Dodd, Bruce I.
