compatible mainframe computer As CEO Watson drove a revolution no other company then or now would dare laying the
foundation for the digital age that has transformed every society corporation and government The story of Watson being
present at the creation of the digital age is intertwined with near Shakespearean personal drama While he put IBM and its
employees at risk Watson also carried out a family shattering battle over the future of the company with his brother Dick This
titanic struggle between brothers led to Dick s death and almost killed Watson Jr himself Though he was eventually touted by
Fortune magazine as the greatest capitalist who ever lived Watson s directionless playboy early years made him an unlikely
candidate for corporate titan How he pulled his life together and despite personal demons paved the way for what became a
global industry is an epic tale full of drama inspiration and valuable lessons in leadership risk taking and social responsibility

Henry, 2021-05-15 In *The Future Conditional* Eric S. Henry brings twelve years of expertise and research to offer a nuanced discussion of the globalization of the English language and the widespread effects it has had on Shenyang the capital and largest city of China's northeast Liaoning Province Adopting an ethnographic and linguistic perspective Henry considers the personal connotations that English has for Chinese people beyond its role in the education system Through research on how English is spoken taught and studied in China Henry considers what the language itself means to Chinese speakers How and why he asks has English become so deeply fascinating in contemporary China simultaneously existing as a source of desire and anxiety The answer he suggests is that English speaking Chinese consider themselves distinctly separate from those who do not speak the language the result of a cultural assumption that speaking English makes a person modern Seeing language as a study that goes beyond the classroom *The Future Conditional* assesses the emerging viewpoint that for many citizens speaking English in China has become a cultural need and more immediately a realization of one's future **Superfine: Tailoring Black Style** Monica L.
