The Greatest Capitalist Who Ever Lived Ralph Watson McElvenny,Marc Wortman,2023-10-24 A compelling new biography The Greatest Capitalist Who Ever Lived spins the Watsons into near Shakespearean figures as if Succession were set in the era of Mad Men The New York Times Book Review Editors Choice The enduring story of Thomas Watson Jr a figure more important to the creation of the modern world than Rockefeller Vanderbilt and Morgan Nearly fifty years into IBM s existence Thomas Watson Jr undertook the biggest gamble in business history when he bet the farm on the creation of the IBM System 360 the world s first fully integrated and compatible mainframe computer As CEO Watson drove a revolution no other company then or now would dare laying the foundation for the digital age that has transformed every society corporation and government The story of Watson being present at the creation of the digital age is intertwined with near Shakespearean personal drama While he put IBM and its employees at risk Watson also carried out a family shattering battle over the future of the company with

his brother Dick This titanic struggle between brothers led to Dick s death and almost killed Watson Jr himself Though he was eventually touted by Fortune magazine as the greatest capitalist who ever lived Watson s directionless playboy early years made him an unlikely candidate for corporate titan How he pulled his life together and despite personal demons paved the way for what became a global industry is an epic tale full of drama inspiration and valuable lessons in leadership risk taking and social responsibility

The De Gruyter Handbook of Automated Futures Vaike Fors,Martin Berg,Meike Brodersen,2024-09-23 How does automation affect us our environment and our imaginations What actions should we take in response to automation Beyond grand narratives and technology driven visions of the future what more can automation offer With these questions in mind The De Gruyter Handbook of Automated Futures provides a framework for thinking about and implementing automation differently It consolidates automated futures as an inter and transdisciplinary research field embedding the imaginaries interactions and impacts of automation technology within their social historical societal cultural and political contexts Promoting a critical yet constructive and engaging agenda the handbook invites readers to collaborate with rather than resist automation agendas It does so by pushing the agenda for social science humanities and design beyond merely assessing and evaluating existing technologies Instead the handbook demonstrates how the humanities and social sciences are essential to the design and governance of sustainable sociotechnical systems Methodologically the handbook is underpinned by a pedagogical approach to staging co learning and co creation of automated futures with rather than simply for people In this way the handbook encourages readers to explore new and alternative modes of research fostering a deeper engagement with the evolving landscape of automation
