Design With Ai Without Losing Your Taste Raphael Westwick, 2025-10-17 Artificial intelligence can accelerate your creative process but it shouldn't erase your individuality. *Design With AI Without Losing Your Taste* teaches artists, designers, and creative professionals how to harness AI as a collaborator, not a replacement. This book walks you through the process of using AI tools for brainstorming, sketching, and refining ideas while maintaining control over aesthetics, emotion, and intent. From crafting effective prompts and curating reference moodboards to analyzing visual output critically, you'll discover practical workflows for keeping your creative voice authentic in the age of automation. Through real-world examples, design frameworks, and mindset shifts, *Design With AI Without Losing Your Taste* helps you establish an intelligent partnership with your tools, one that amplifies intuition rather than imitation. Whether you're a hobbyist exploring new creative tools or a professional building client-ready concepts, this book gives you the language, process, and confidence to use AI while staying true to your artistic identity.

Drone Cultures John Muthyala, 2025-12-11 The drone is an object of contradiction: at once a weapon of war and a medium of wonder. Often linked to destruction and death, the drone also sparks creativity and enhances education. Encouraging us to think critically about the drone, the book traces its emergence in twenty-first-century warfare and examines its entanglement with surveillance, culture, biopolitics, and artificial intelligence, as well as its representations in literature and the arts. Drones are instruments of power and tools of possibility; the book challenges us to see them as both. Drones are reshaping how we understand war and peace, distance and time, privacy and surveillance, power and accountability, democracy and governance. This book invites readers to use the drone as a lens on our evolving human condition.
