The Long Fight - A Strategic and Practical Guide for Digital Health Entrepreneurs David Qu, 2025-07-15 The U S healthcare system is massive complex and ripe for transformation For digital health entrepreneurs founders CEOs and innovators the opportunity is enormous But so are the challenges fragmented systems entrenched stakeholders uncertain regulation and long sales cycles

Success demands more than a great idea. It requires deep industry knowledge, strategic clarity, resilient leadership, and relentless execution. In *The Long Fight*, veteran digital health executive David Qu summarizes 30 years of hard-won experience into a practical, inspiring guide. Drawing from his time leading global SaaS businesses, advising startups, and coaching founders, David offers a rare combination of strategic frameworks, market insights, and real-world lessons tailored to the realities of digital health. Whether you're launching a new venture, scaling a platform, raising capital, or exploring go-to-market models, this book will equip you with the tools to navigate complexity and lead with purpose. Inside, you'll learn how the U.S. healthcare ecosystem really works and what every founder must understand. What investors look for at each stage of funding and what turns them off. How to define and test product-market fit in a crowded, regulated space. The keys to selling into health systems, payers, and employers with different GTM channels. Why strategic partnerships succeed or fail and how to build ones that scale. How to lead through ambiguity and build a culture that endures. Backed by data, informed by experience, and designed for action, *The Long Fight* is a must-read for anyone building the future of health. If you're ready to solve meaningful problems and do it with insight and intention, this book is your essential companion.

ECIAIR 2019 European Conference on the Impact of Artificial Intelligence and Robotics Dr. Paul Griffiths, Dr. Mitt Nowshade Kabir, 2019-10-31

The Transfer of Knowledge through Art and Visualization Anna Ursyn, 2023-12-06

This book offers strategies for the transfer of knowledge through combining information technology and visual arts, and examining how to visually enhance and convey knowledge. Specifically, it presents a fresh look at how technology-based science-inspired projects can be innovatively delivered through artistic methods. It explores a selection of inventions gained through the collaboration of internationalist professionals in various fields of knowledge, before outlining a new approach in how knowledge can be delivered using the inventions in a novel visual way through action-based visual storytelling, video, graphical display, and visualization. Crucially, it looks at how current media and techniques used for presenting topics in industries, corporations, commerce, and marketing companies could be successfully translated and developed as a presentation skill in the school, college, or university environment. It thus seeks to address the skills that prospective employers expect from students in terms of possessing the ability to create visual presentations of data, solutions, and products. With a sharp focus on the current generation, schools, academies, business, and marketing companies, and catering to the modern demand for novelty in presentation, it makes a strong contribution to the conversation around professional collaboration, visual communication, knowledge transfer, novel technologies, and knowledge visualization.
