*Teaching English With AI* Gusti Astika, 2025-04-27 Teaching English with AI is a practical guide for high school English teachers who want to start using Artificial Intelligence in the classroom. It offers simple, clear strategies to make your lessons more engaging, reduce your workload, and give students more personalized learning without replacing the human touch that makes teaching meaningful. You'll learn how to use AI tools to support students outside class, automate tasks like grading and feedback, and create lessons that match each student's level. From writing help to speaking practice, lesson planning to gamified learning, this book shows how AI can make your job easier and your classroom more exciting. It also addresses real concerns like feeling unsure about AI or wondering how to use it responsibly. With ready-to-use ideas, lesson plans, and an easy action plan, this book will help you feel more confident using AI while keeping students at the heart of your teaching.

*Writing Instruction Across the Disciplines* Steve Graham, Carol Booth Olson, Tanya Baker, Huy Q. Chung, Undarmaa Maamuujav, Jacob Steiss, 2025-12-05 This book translates the best current research on adolescent writing instruction into teacher-friendly practices that are easy to implement in today's diverse classrooms. Leading experts present instructional methods that are applicable across the curriculum as well as specific, proven techniques to build writing skills and promote critical thinking in English language arts, social studies, science, and math. Key chapters address multimodal writing and pedagogical uses of generative artificial intelligence (AI). Other essential topics include self-regulated strategy development, culturally sustaining writing practices, writing for college readiness, and teaching argument writing. Guiding Questions, Action Steps, and helpful classroom examples in each chapter enhance the book's utility as a teacher resource and course text.

*Instructional Leadership Efforts and Evidence-Based Practices to Improve Writing Instruction* VanSlander, Jennifer, 2023-10-11 Writing is a critical skill for academic and professional success, yet it is often neglected in schools. According to achievement data, only a quarter of students in the United States are proficient writers, indicating a significant need for improvement in writing instruction. One contributing factor to this problem is the lack of school and district leadership in writing instruction. School improvement efforts are often concentrated on reading and math, leaving writing instruction overlooked. Additionally, issues related to writer identities, self-efficacy in writing, and educator training can also impact the effectiveness of instructional leadership in this critical subject. *Instructional Leadership Efforts and Evidence-Based Practices to Improve Writing Instruction*, edited by Jennifer VanSlander of Columbus State University, provides within this peer-reviewed book an exploration of evidence-based practices aimed at developing instructional leaders and enhancing student achievement in writing. It covers a broad range of topics related to writing instruction, including learning theories, conceptual models, and the latest empirical research associated with the supervision, organization, implementation, and monitoring of writing programs and instructional approaches. With its emphasis on writer identities, self-efficacy, equitable and inclusive practices, curriculum planning and implementation, assessment, instructional frameworks, and managing

instructional change this book provides educators with a comprehensive guide to improving writing instruction It is an essential resource for educators who seek to increase the effectiveness of instructional leadership and writing instruction at the classroom school or district level

**Demystifying Academic Writing in Higher Education: A Process View on Academic Textual Production** Xinghua Liu,Rui Alexandre Alves,Angelique Aitken ,Josef Schmied,2025-10-30

Academic writing in this Research Topic refers to the type of writing demonstrating students disciplinary knowledge of and proficiency in synthesizing analyzing and responding critically to new information Hyland 2004 Swales 1990 which may include those genres like course essays project reports research proposals lab notes journal articles conference paper theses and dissertations As the current workplaces have become increasingly specialized higher education worldwide has been increasingly charged with the task of developing students academic writing and correspondingly on students parts learning through writing has been necessary for them to succeed in higher education To prepare university students for writing challenges during the past decades numerous studies have been devoted to the study of linguistic and rhetorical resources in students academic writing under such umbrella terms like style reader awareness authorial voice writers identity stance evaluation textual structures steps and moves Charles Hunston Hinkel 2002 However previous research on academic writing has been predominantly focused on the linguistic and rhetorical aspects namely the final product of students writing while the nature and processes of composition students engagement and individual differences and the influence of contextual factors like emerging technology have been under explored Thus the goal of this Research Topic is to bring a process oriented and dynamic perspective to the study of textual production in academic contexts by both encouraging an expanded view of existing research paradigms and also welcoming novel approaches Data can be collected by using corpus building interviews and questionnaires but we would also welcome the use of experimental methods and a mixed method approach for data collection Meanwhile previous research mainly studied university students who were learning English as a second or foreign language hence we also welcome research examining first language writers and students who are learning a second or foreign language other than English We believe for the study of the complex phenomenon like academic writing no single method or tool can suffice Therefore we strongly recommend a more creative perspective in data collection and analyzing and interpreting academic writing Papers can present quantitative data analyses based on experimental design or qualitative data analyses stemmed from more ethnographic oriented research Systematic review studies are also welcome We encourage contributions related but not restricted to the following topics

- 1 Cognitive processes in academic texts planning composing and revisions and student writers individual differences
- 2 Metacognition and self regulation in academic texts planning composing and revisions and student writers individual differences
- 3 Motivation and self efficacy in academic texts planning composing and revisions and student writers individual differences
