Building Teaching Competencies for AI-Driven and Inclusive Learning Cruz, Mário, Queirós, Ricardo, Mascarenhas, Daniela, 2025-11-05 The rapid integration of artificial intelligence AI into education reshapes how teachers design deliver and assess learning experiences As classrooms become more diverse and technologically developed educators must create new competencies to harness AI tools while ensuring inclusive equitable learning environments Building teaching competencies for AI driven and inclusive learning utilizes emerging technologies while applying them in ways that support all learners This shift enhances professional development curriculum design and pedagogical strategies to prepare educators for human centered teaching and intelligent technologies Building Teaching Competencies for AI Driven and Inclusive Learning explores how educators can develop the skills and knowledge needed to integrate AI technologies into teaching while fostering inclusive learning environments It examines the intersection of technology pedagogy and equity to ensure all students benefit from AI enhanced education This book covers topics such as professional development special education and data analysis and is a useful resource for educators computer engineers sociologists academicians researchers and data scientists

Artificial Intelligence in Education Vania Dimitrova, Benedict du Boulay, Art Graesser, 2009-06-15 This publication covers papers presented at AIED2009 part of an ongoing series of biennial international conferences for top quality research in intelligent systems and cognitive science for educational computing applications The conference provides

opportunities for the cross fertilization of techniques from many fields that make up this interdisciplinary research area including artificial intelligence computer science cognitive and learning sciences education educational technology psychology philosophy sociology anthropology linguistics and the many domain specific areas for which AIED systems have been designed and evaluated AIED2009 focuses on the theme Building learning systems that care from knowledge representation to affective modelling The key research question is how to tackle the complex issues related to building learning systems that care ranging from representing knowledge and context to modelling social cognitive metacognitive and affective dimensions This requires multidisciplinary research that links theory and technology from artificial intelligence cognitive science and computer science with theory and practice from education and the social sciences

Artificial Intelligence in Education Technologies: New Development and Innovative Practices Tim Schlippe, Eric C. K. Cheng, Tianchong Wang, 2023-11-08 This book is a collection of selected research papers presented at the 2023 4th International Conference on Artificial Intelligence in Education Technology AIET 2023 held in Berlin Germany on June 30 July 2 2023 AIET establishes a platform for AI in education researchers to present research exchange innovative ideas propose new models as well as demonstrate advanced methodologies and novel systems It is a timely and up to date publication responsive to the rapid development of AI technologies practices and their increasingly complex interplay with the education domain It promotes the cross fertilisation of knowledge and ideas from researchers in various fields to construct the interdisciplinary research area of AI in Education These subject areas include computer science cognitive science education learning sciences educational technology psychology philosophy sociology anthropology and linguistics The feature of this book will contribute from diverse perspectives to form a dynamic picture of AI in Education It also includes various domain specific areas for which AI and other education technology systems have been designed or used in an attempt to address challenges and transform educational practice This timely publication is in line with UNESCO s Beijing Consensus on Artificial Intelligence and Education It is committed to exploring how AI may play a role in bringing more innovative practices transforming education and triggering an exponential leap towards the achievement of the Education 2030 Agenda Providing broad coverage of recent technology driven advances and addressing a number of learning centric themes the book is an informative and useful resource for researchers practitioners education leaders and policy makers who are involved or interested in AI and education

Implementing a 21st Century Competency-Based Curriculum Through Lesson Study Eric C.K. Cheng, Bruce Lander, 2024-03-12 Drawing from a comprehensive collection of university funded teaching development projects this edited volume explores the theories and practices behind developing pedagogies through Lesson Study for a 21st century curriculum It encompasses various aspects such as lesson observation assessment literacy online teaching pedagogy values education STEM education language education and mathematics education The chapters investigate the application of Lesson Study in diverse contexts highlighting its use in ICT based teaching and learning environments the development and

refinement of e pedagogies as well as the integration of AI in education Through these cases the content demonstrates how Lesson Study empowers teachers to craft pedagogies that enhance student learning while emphasizing its pivotal role as an innovative approach to address the evolving landscape of education in this digital era Implementing a 21st Century Competency Based Curriculum Through Lesson Study is the first to address the academic discussion of using Lesson Study to develop pedagogies for effective curriculum implementation to tackle the impact of Industry 4 0 on school education It offers valuable insights reflections and practical guidance to policy makers school leaders teacher educators and teachers who are dedicated to enhancing student learning and nurturing the essential skills required for success in the 21st century

EMOOCs 2023 Christoph Meinel, Stefanie Schweiger, Thomas Staubitz, Robert Conrad, Carlos Alario Hoyos, Martin Ebner, Susanna Sancassani, Agnieszka Żur, Christian Friedl, Sherif Halawa, Dilrukshi Gamage, Jeffrey Cross, May Kristine Jonson Carlon, Yves Deville, Michael Gaebel, Carlos Delgado Kloos, Karen von Schmieden, 2023-11-14 From June 14 to June 16 2023 Hasso Plattner Institute Potsdam hosted the eighth European MOOC Stakeholder Summit EMOOCs 2023 The pandemic is fortunately over It has once again shown how important digital education is How well prepared a country was could be seen in our schools universities and companies In different countries the problems manifested themselves differently The measures and approaches to solving the problems varied accordingly Digital education whether micro credentials MOOCs blended learning formats or other e learning tools received a major boost EMOOCs 2023 focusses on the effects of this emergency situation How has it affected the development and delivery of MOOCs and other e learning offerings all over Europe Which projects can serve as models for successful digital learning and teaching Which roles can MOOCs and micro credentials bear in the current business transformation Is there a backlash to the routine we knew from pre Corona times Or have many things become firmly established in the meantime e g remote work hybrid conferences etc Furthermore EMOOCs 2023 has a closer look at the development and formalization of digital learning Micro credentials are just the starting point Further steps in this direction would be complete online study programs or full online universities Another main topic is the networking of learning offers and the standardization of formats and metadata Examples of fruitful cooperations are the MOOChub the European MOOC Consortium and the Common Micro Credential Framework The learnings derived from practical experience and research are explored in EMOOCs 2023 in four tracks and additional workshops covering various aspects of this field In this publication we present papers from the conference s Research Experience Track the Business Track and the International Track **Learning Analytics Enhanced Online Learning Support** Shuang Li, 2023-12-08

Offering the latest developments in online education in the era of big data this book explores theories technologies and practices in the field of data driven online learning support services using learning analytics This book is divided into five chapters Chapter 1 reflects and reconstructs the connotation of learning support against the backdrop of education reform the rise of learning analytics and the upgrading of the demand for learning services in the new era Chapter 2 presents a P K

DSE E model of online learner characteristics and discusses measurement and data representation methods for learner characteristics based on it Chapters 3 5 focus on the three types of learning support that are closely related to learning performance and satisfaction including the promotion of social learning electronic learning assessment based on the learning process and personalized tutoring and support This book innovatively develops the concept theory and practical methods of student support services in distance education traditional practices in the new era and provides valuable exploration of data driven personalized learning service methods and technologies in the era of artificial intelligence through rich examples This book will be essential reading for students and scholars of distance and online education educational technology and audiovisual education

School Counselors as Practitioners Judy A. Nelson, Lisa A. Wines, 2024-06-25 School Counselors as Practitioners Second Edition is a hands on practice based task oriented guide to being an effective school counselor Thoroughly revised this textbook continues to address the foundation of school counseling the main duties of a school counselor the skills needed to be successful and what to expect as a school counseling professional All these topics have been updated to include the current thinking research and evidence based practices and challenges in school counseling Additionally interviews of principals school counselors and community leaders are included which provide readers with the reality of how to navigate the waters of the comprehensive school counseling program The chapter authors also highlight the necessity of designing implementing and evaluating the counseling program for continuous improvement Online resources provide students with templates and handouts for on the job responsibilities as well as quiz questions for every chapter This updated edition is essential reading for counselor educators graduate students enrolled in a school counseling program supervisors of school counselors including administrators and practicing school counselors

Student Empowerment in Higher Education. Reflecting on Teaching Practice and Learner Engagement Anjoom A. Mukadam ,2020-05-04 Student Empowerment in Higher Education brings together the accumulated knowledge and experience of many accomplished teachers and students from higher education institutions around the world and has much to offer those who are engaged in higher education as students teachers or support staff The authors offer personal reflections in teaching learning mentoring assessment hands on activities course design and student identities in higher education across the globe supported by academic research and scholarship Readers are provided with a window into tried and tested empowering practices in varying contexts enabling them to see what works and what does not alongside the challenges and possibilities A distinctive feature of this book and its paramount strength is that it explores best practices in student empowerment whilst reflecting on matters of teaching and learning that are familiar to students and teachers alike and also explores practices in a variety of disciplines The intention of these volumes therefore is not only to inform readers about the diverse learning and teaching approaches of the authors but most importantly to facilitate processes of student empowerment and promote reflection on teaching and learning practices In recent decades higher education policy discourse has persistently implied

that a university education is delivered to students under the impersonal banner of the student experience Not only does this commodify the diverse individual experiences of students into one marketable product it also creates false barriers and power dynamics between students and their teachers In *Student Empowerment in Higher Education* the students and lecturers who collaborated to write this important volume have literally blown such misleading notions out of the window I highly recommend each varied and autonomous chapter to learn what really inspires confidence and success in university students Professor Sarah Hayes Professor of Higher Education Policy University of Wolverhampton The two volumes of *Student Empowerment in Higher Education* offer the reader rich and varied examples and understandings of student empowerment from around the world The authors provide reflective accounts of learning and teaching from diverse perspectives and disciplines which focus on many different areas of practice in higher education It is this variety that will appeal to many readers as the source of ideas and inspiration for numerous possible routes to empowerment With many chapters co authored by students and staff the book models the collective responsibility students and staff have for enhancing student empowerment Dr Catherine Bovill Senior Lecturer in Student Engagement University of Edinburgh Fulbright Scholar Elon University North Carolina USA Visiting Fellow Knowledge Exchange University of Winchester
