Mapping the Implications of Technology-Induced Environmental Degradation in

Gautam Bhatia's "The Wall" Mumtaz Mazumdar, 2025-04-01 Scientific Essay from the year 2025 in the subject Literature

Middle East language English abstract The aim of my paper is to explore the strongly suggestive environmental degradation shown in the speculative fiction by Gautam Bhatia's *The Wall*. The book is set in a fictive walled location called Sumer. It brings forth a strange plastic and artificial world with extremely limited natural and social environment by the river named Rasa with its few tributaries a speaking Garuda bird Woad Garden bamboo grove few foods like rahi bamboo soup and peanuts absence of animals a diminishing democracy a disgruntled labour force etc for its very limited citizens slotted as Shoortans Elders Tarafians Golden Youth Select and others who live within the blank wall. It is clearly noted that the book has no stark evidence of any technological cause behind the creation of such a Walled place. However, the author's systematic opening of the book and strong acceptance about man's over ambitions with technology in his various discussions about this speculative book clearly indicates the alarm of an upcoming such world caused by AI which bolsters the objective of my paper. My paper will enlist and explain the materials behind the physical models which are obtained at the cost of adding carbon footprints to create and keep going this latest technology. The objective of the paper will employ a post humanist approach which will best benefit speculative narrative of the book where my paper will show how the futuristic nature of this fiction intersects with post humanist's intention of converting humans into something different than humans and such humans are to solve any problem all problems. But no such perfection could be achieved yet in human history despite human being's obsession towards technology from long drawn times. Rather newer technologies have also been bringing numerous whims along with their benefits and even go to the extent of the most serious negative impacts like environmental

How to Start a Podcast Using AI Benjamin Pollack, 2025-08-21

We are in a sweet spot. AI tools are polished enough to deliver professional results. The podcasting space is still wide open for new voices. Most people still don't realize how easy it's become to start. If you wait another two years, the market will be more crowded and your unique idea might already be taken by someone else. Starting a podcast in 2025 is like starting a YouTube channel in 2010: the wave is building, but it hasn't fully crested yet. If you get in now, you can ride the momentum as AI reshapes the industry. This book gives you the roadmap, the tools, and the prompts to launch your podcast with confidence. Inside, you'll learn how to: Plan your show and define your audience, Build your podcast brand with AI-powered tools, Record and edit episodes quickly with professional results, Distribute your show across major platforms, Grow your audience and community, Monetize your content and create sustainable income, Avoid AI pitfalls while keeping your authentic voice. You don't need a studio or expensive equipment; just your voice, a laptop, and the willingness to start. With the help of AI, you can cut your production time in half, create better content faster, and focus on what matters most: connecting with your listeners. Whether you're an entrepreneur, educator, storyteller, or simply someone with a passion to share, this guide will help you go from idea to published podcast in days instead of months. Your audience is already out there, scrolling through Apple Podcasts or Spotify, looking for someone like you. This book will help you make sure they find you.
