Crisis Absolutism Revolution Europe And The World 1648-1789:

Crisis, Absolutism, Revolution Raymond Birn, 2005-08 Birn's exceptionally well written narrative covers the century and a half that preceded the French Revolution. The first section, *An Age of Crisis and Discovery 1648-1715*, treats the period between the Peace of Westphalia and the death of Louis XIV as a time of political experimentation, colonial exploitation, hardening social lines, economic regression, and scientific advance. The second section covers the period known retrospectively as the *Ancien Régime 1715-1789*. Eighteenth-century politics are viewed as replete with confrontation and conflict, and a broadened view of the Enlightenment emphasizes the significance of print culture while also introducing the reader to sites of sociability such as academies, salons, Masonic lodges, and coffeehouses. This is the third edition, revised and expanded. *Crisis, Absolutism, Revolution, Europe 1648-1789* and new to it is an examination of European contact with Africa, the Americas, and South and East Asia. More attention is also paid to the slave trade, women, family life, religion, exploration, and the emergence of a civil society. It contains an index, 17 maps, and 20 illustrations. [A Short History of Europe, 1600-1815](#) Lisa Rosner, John Theibault, 2000-10-19 A concise and lively survey that introduces students to the people, ideas, and conflicts in European history from the Thirty Years War to the Napoleonic Era. The authors draw on new work in gender studies, environmental history, anthropology, and cultural history to illustrate the animating force of the period: the assumption that the world could be made amenable to human reason, though precisely how that was to be done remained highly contested. The nature of those contests in politics, culture, and society is traced throughout the book. The work includes discussions of developments in science, art, and literature. A chronology of people and events concludes each chapter, and there is a glossary of key terms at the end of the book. **War, State, and Society in Liège** Roeland Goorts, 2019-03-11 Small power diplomacy in seventeenth-century Europe. *War, State, and Society in Liège* is a fascinating case study of the consequences of war in the Prince-Bishopric of Liège and touches upon wider issues in early modern history, such as small power diplomacy in the seventeenth century and during the Nine Years War. For centuries, the small semi-independent Holy Roman Principality of Liège succeeded in preserving a non-belligerent role in European conflicts. During the Nine Years War, 1688-1697, however, Liège's leaders had to abolish the practice of neutrality. For the first time in its early modern history, the Prince-Bishopric had to raise a regular army, reconstruct ruined defence structures, and supply army contributions in both money and material. The issues under discussion in *War, State, and Society in Liège* offer the reader insight into how Liège politically protected its powerful institutions and how the local elite tried to influence the interplay between domestic and external diplomatic relationships. [The Shaping of Western Civilization, Volume II](#) Michael Burger, 2013-12-16 Michael Burger's goal in this inexpensive overview is to provide a brief historical narrative of Western civilization. Not only does its length and price separate this text from the competition, but its no-frills, uncluttered format and well-written, one-authored approach make it a valuable asset for every history student. *The Shaping of Western Civilization: From the Reformation to the*
