

COPYRIGHTS

A copyright is a right conferred on the owner of a literary or artistic work. It is an exclusive right to control the publication, distribution and adaptation of creative works. The right lies with the owner-i.e.-copyright holder for a certain period of time. As time lapses, the work can be republished or reproduced by others. Usually, the timespan of a copyright extends through the entire life of the owner and lasts up to a period of about 50 to 100 years after death. In case of anonymous works, the right lasts for 95 years after publication or 120 years after the creation.

Copyright stands for legal right to prevent others from copying an existing work of an individual. It is such a right exclusively given for a definite period of time to the originator (author or creator) of intellectual work such as publication, or an article or a literary work for sale or any other use. In other words, copyright is a set of property rights vested in the owner of a protected work, which covers published and unpublished literary, scientific and artistic works, etc. Copyright broadly include : Literary works; Musical works; Dramatic works; Audiovisual works; Pantomimes and Choreographic works; Photographic works; Sound recordings; Broadcast; Architectural works; Sculpture; Drawing; etc. Recently an expression called "neighbouring rights" has been added to the concept of copyrights which cover the following three types of rights:

- The rights of performing artists in their performance
- The rights of producers of phonograms in their phonograms
- The rights of broadcasting organizations in their radio and television broadcasts.

TRADEMARKS

A trademark is a symbol, which is generally used to identify a particular product, which indicates its source. A trademark can be a combination of words, phrases, symbols, logos, designs, images or devices, used by an individual, legal entity or business organization to distinguish their products from that of others. For example, you can identify the products of Nike Inc., through their logo, which is embossed on their products. Once registered, trademarks are protected legally and the owners can sue persons who use their trademarks.

PATENTS

Patents are rights related to new inventions. This right is conferred on persons who invent any new machine, process, article of manufacture or composition of matter, biological discoveries, etc. In order to grant a patent, the invention should fit into the following criteria, which may differ from country to country. In general, the invention must be new, inventive and should be useful or can be applied in industries. The person who receives a patent for his invention has an exclusive right to control others from making, using, selling, or distributing the patented invention without permission. Generally, the time limit of a patent is 20 years from the date of filing the application (for the patent).
