Crisis In Telecommunications Carrier Liability Historical Regulatory Flaws And Recommended Reform:

The Crisis in Telecommunications Carrier Liability Barbara A. Cherry,1999-05-31 The Crisis in Telecommunications Carrier Liability addresses the important public policy issues underlying liability rules for common carriers in the context of telephone companies These public policy concerns must be evaluated for their compatibility in achieving other public policy objectives such as universal service imposed on the telecommunications industry under the Telecommunications Act of 1996 This book offers the industry and policymakers as well as those hoping to influence the public policy process both the means and recommendations for designing more appropriate liability rules in order to achieve the numerous social objectives for the telecommunications industry **The Crisis in Telecommunications Carrier Liability** Barbara A. Cherry,2012-10-12 My

curiosity with the economic efficiency and social benefits of provisions used by telecommunications carriers to limit their liability to customers for damages arising from service interruptions and network outages is a longstanding one It began with the changing state regulatory environments in the late 1980 s while representing AT T as an attorney before numerous state legislatures in the Midwest As telecommunications carriers faced the ramifications of deregulation several legal consequences came to the fore One important consequence was the impact of changing regulatory rules and requirements on the carriers abilities to continue to limit their liability for damages to customers in a non tariffed world As a result one of my responsibilities while employed by AT T was to seek legislative relief in some state jurisdictions which would enable the continued use of limited liability provisions notwithstanding other deregulatory developments in the industry In my capacity as an attorney I succeeded in this task in the few jurisdictions for which I was given the charge However as an economist these efforts piqued my interest regarding the economic effects of such limited liability provisions on consumer interests What liability rules for the industry would really better serve general societal interests As my career evolved which involved returning to graduate school to pursue my Ph D and becoming the Director of Public Policy Studies at Ameritech I had the opportunity to pursue interdisciplinary research in telecommunications policy issues **Obtaining the best from**
