**The Crisis of Islam** Bernard Lewis, 2003-03-25 In his first book since *What Went Wrong* Bernard Lewis examines the historical roots of the resentments that dominate the Islamic world today and that are increasingly being expressed in acts of terrorism. He looks at the theological origins of political Islam and takes us through the rise of militant Islam in Iran, Egypt and Saudi Arabia, examining the impact of radical Wahhabi proselytizing and Saudi oil money on the rest of the Islamic world. The *Crisis of Islam* ranges widely through thirteen centuries of history but in particular it charts the key events of the twentieth century leading up to the violent confrontations of today: the creation of the state of Israel, the Cold War, the Iranian Revolution, the Soviet defeat in Afghanistan, the Gulf War and the September 11th attacks on the United States. While hostility toward the West has a long and varied history in the lands of Islam, its current concentration on America is new. So too is the cult of the suicide bomber. Brilliantly disentangling the crosscurrents of Middle Eastern history from the rhetoric of its manipulators, Bernard Lewis helps us understand the reasons for the increasingly dogmatic rejection of modernity by many in the Muslim world in favor of a return to a sacred past. Based on his George Polk Award winning article for *The New Yorker*, *The Crisis of Islam* is essential reading for anyone who wants to know what Usama bin Ladin represents and why his murderous message resonates so widely in the Islamic world.

**The Crisis of Islam** Bernard Lewis, 2005 **Comparative Book Review of Unholy War: Terror in the Name of Islam and The Crisis of Islam: Holy War and Unholy Terror**, 2003 The horrific attacks of September 11, 2001, ostensibly carried out in the name of Islam, focused American attention on militant Islam and raised important questions about the fundamental nature of the world's second largest religion and the violence carried out in its name. Is Islam, as asserted by President Bush, a religion of peace? Is the violent jihad a central concept of Islam which can mean both to strive to lead a good Muslim life in the path of God and to rise up in arms against unbelievers, proclaimed by Osama bin Laden, consistent with the tenets of this religion? In a March 2003 *Discovery Spotlight* television report, *New York Times* commentator Thomas L. Friedman remarked, "Until we understand the roots of 9/11, I don't think we'll ever be safe." In keeping with Sun Tzu's counsel to know one's enemy, contemporary American military strategy must be informed by an understanding of the beliefs and goals of our self-proclaimed Muslim enemies. In *Unholy War* and *The Crisis of Islam*, professors John Esposito and Bernard Lewis respectively introduce the non-Muslim reader to Islam's principles, customs and history with a particular focus on the defining element of jihad in order to better understand the mindset and motivations of terrorists claiming to act in the name of Islam. They also explain the growing grassroots Islamic identity that appears increasingly hostile to the West generally and America in particular. Esposito and Lewis, both respected American scholars having written or edited between them some 40 books on Islam, present clear and dispassionate explanations of the teachings of Islam from the Quran, the example of the Prophet Muhammad and Islamic law developed over the past 13 centuries on jihad and legitimate warfare, the use of violence and the terrorist tactics employed today by al
